MEXIA, TEXAS, FRIDAY, OCT. 17, 1924.

75c PER MONTH IN ADVANCE

## G.O. P. NATIONAL CAMPAIGN FUND \$3,000,000

### MEXIA TRADES DAY COMMITTEE REPORTS FINE PROGRESS

#### ALL COMMITTEES TO GET BUSY ON MONDAY

Chairman L. S. Patterson of the committee soliciting gifts for the Mexia Merchants Merchandise Show, to be held in honor of out of town folks here Nov. 8th, reports that of the twenty merchants visited this morning all subscribed at least fifty dollars worth of merchandise, except one and the one subscribed one hundred and fifty dollars worth which represented a fifty dollar gift each from its Teague and Jewett store as well as its place here.

All committees will be in the field at 9:30 Monday morning and advertising on a large scale will begin next week. Nothing but enthusiasm has been expressed so far. Upon invitation of President McElroy of the Merchants association, the Chamber of Commerce has joined forces as well as the Manufacturers association.

The auto caravan will make its trip and hope to carry with them The Elks Band and Boy Scouts to bill every community near here. This trip will take place Oct. 28th.

A tentative program has been arranged but is not yet ready for publication. John Corley (Jr) has been appointed to be judge in the prettiest country girl contest.

#### MEXIA FRIENDLY TO CAMPAIGN TO IMPROVE COLLEGE

O. W. Milburn, Financial Agent for Westminster College, is very much encouraged over prospects ahead of the nearby institution, in view of the expressions of interest so generously made by every one when Westminster is mentioned.

The college is now in the midst of a campaign to raise \$100,000 for its expansion program, which will provide new equipment, new buildings and added facilities to meet the growing demands of the institution.

He and others, representing the college were guests Thursday at the noonday luncheon of the Mexia Rotary club, Monday of this next week, or within the next few days, efforts will be made, Secretary Jere Cason of the Chamber of Commerce assisting, to raise Mexia's quota which is \$10,000.

#### PARENTS OF DYING BOY ARE LOCATED BY RADIO

LOS ANGELES, Oct. 17.—Radio served here to bring a dying boy and his parents together.

An 11-year-old boy was picked up on a street, fatally injured as the result of a traffic accident. He was taken to a hospital and frantic efforts made to locate his parents.

Finally the radio was resorted to and Mr. and Mrs. John Melton arrived at the hospital just an hour before their son, Foster, died. They were informed of their son's accident while a musical concert was interrupted.

#### BATTLE TEST IS STILL DRILLING

The Gabriel Johnson Green test at Baxette continues to be much talked of but about which little seems definitely known in oil circles. It is understood to be drilling around 2500 feet and that the bottom of the chalk was found at 2340 feet. This log is said to tally exactly with that of the Powell producing area.

#### ANOTHER REMITTANCE SCHOOL APPORTIONMENT

AUSTIN, Texas, Oct. 17.—The State Department of Education has made one dollar per capita of the school apportionment to all county superintendents in districts that have qualified, making a total of three dollars paid on current apportionment of \$18 per capita.

#### Chinest Legation Endeavoring To Stop Tong War

WASHINGTON, Oct. 17.—The Chinese legation here stepped into the Tong war that has terrified China towns along the Atlantic seaboard during the last week, in an effort for peace. Local representatives of the warring factions were brought together by Dr. Alfred Sze, Chinese minister, and induced to agree upon a truce. The document will be signed later today.

#### COTTON COMES IN SLOWLY IN COUNTY ADJOINING MEXIA

According to reports from Free-stone County, cotton is now coming in very slowly throughout that county. The 1924 crop is almost all in.

#### BAPTISTS START BIG TENT MEET IN MEXIA MONDAY

The big tent meeting of the Baptist church will begin Sunday in Mexia. Mr. Hunt, tent man with the Starnes evangelistic party, arrived in Mexia Friday to begin the raising of the tent, preparatory to the big event of the church year.

The pastor, Rev. Joe Jeffers and the Assistant Pastor, Rev. Paul B. Harper will have charge of the services. Rev. Jeffers to do the preaching and Rev. Harper to lead in the service of song.

Mrs. Paul Harper and Mrs. Ira Needham will be at the pianos. Three choirs have been organized for the services, a junior, intermediate and senior.

The tent is to be placed at the corner of Main and McKinney, and will be sufficiently commodious to take care of great congregations. The revival will continue two weeks.

#### GREAT WALL CITY IS CAPTURED BY TSO LIN'S TROOPS

OSAKA, JAPAN, Oct. 17.—Chang Tso Lin's Manchurian troops completely occupied Shan Hai Kwan, gateway city in the great wall of China today and captured 1,000 Chinese troops, according to Mukden dispatches.

A machine detachment is reported pursuing Wo Pei Fu's troops towards Chin Wang Tso.

In connection with the above dispatch it is well to recall that Japanese sympathies are with Chang Tso Lin and that Mukden whence the report comes is the Manchurian warlord's headquarters.

#### 1400 Hats Are In Ring In England

LONDON, Oct. 17.—Fourteen hundred candidates will be placed in nomination by three political parties tomorrow with twelve stormy days of campaigning remaining before the general election. Leaders expect the conservatives to name 549 candidates, labor 510, and liberals, 350.

#### FANATIC ARRESTED.

KANSAS CITY, Oct. 17.—"Jesus Christ Revealed," arrested here during a police round up of religious fanatics yesterday, today gave his earthly name as V. Cochran of San Antonio, Texas. Cochran, who was at first believed to be "King" Benjamin Purnell, said he joined the cult at San Antonio to get evidence against a negro, who he said was the real leader of the band. Cochran said he had a family in San Antonio.

ST. JOSEPH, Mo., Oct. 17.—The man held in Kansas City as "Jesus Christ Revealed," is not "King" Benjamin Purnell, according to local authorities after viewing a wired description of the prisoner.

#### FANG CAPTURES SHANGHAI AND IS IN FULL CONTROL

SHANGHAI, Oct. 17.—General Fang, ward lord of Fukien, occupied the city this afternoon and assumed control of the military district. Fang has been a lieutenant of General Yuan who defeated Hsiang and captured the city. Danger in the city is considered ended, but the population is panicky and a thousand natives rushed the barbed wire entanglements around the foreign quarter during the night but were repulsed. Negotiations for the surrender of 10,000 defeated Chekiang soldiers encamped outside the city are under way.

#### COUPLE TO PLEAD GUILTY TO CHARGE

MOUNT VERNON, Ill., Oct. 17.—Lawrence Hight, unfrocked Methodist minister, and Elsie Sweetin, are scheduled to be brought here to plead guilty to two joint first degree murder indictments. Both confessed poisoning their mates to clear the way for their love. States Attorney Frank Thompson indicated that he would ask the extreme penalty.

#### Many Oil Men To Attend Association Meeting In Dallas

Quite a number of local oil men are planning to go to Dallas, Friday, October 24, for the sixth annual meeting of the Texas Division of the Mid-Continent Oil and Gas Association. The meeting will be held at the Adolphus Hotel at 10:00 o'clock.

An executive committee will be elected for the ensuing year and matters of general interest will be discussed. The annual dinner will be served in the Palm Garden at 7:00 o'clock. An interesting program is said to have been planned, which includes short addresses by prominent men on timely subjects of value to the oil fraternity.

Practically every company in the Mexia territory is a member of the Association.

#### Another Herd of Cattle Doomed

HOUSTON, Texas, Oct. 17.—The seventh herd of cattle in Harris county found to be infected with foot and mouth disease was discovered here and the herd of 75 will be slaughtered this afternoon. An additional herd of 300 "contact cattle" will also be slaughtered as a precautionary measure. All cattle have been held within the restricted district since the outbreak of the epidemic.

#### BOLTON RETURNS FROM DEPUTY MEETING IN CHICAGO THIS WEEK

Hon. Frank Bolton, Exalted Ruler of the Mexia Elks, also District Deputy to the Grand Exalted Ruler of the Elks of America has returned from Chicago where he attended a meeting the early part of the week at which all districts in the United States were represented. Mr. Bolton represented the largest district in Texas, comprised of clubs in thirteen of the largest cities of this section and North Texas.

#### BOYD TEST NOT YET IN THE AUSTIN CHALK

Colonel A. E. Humphreys left at noon Friday to spend Saturday in Dallas. He will return here Sunday, to spend a few days. Before leaving he stated that he had just visited the Boyd Oil Company's test on the Boyd, Northeast of here, and that the drill had not yet penetrated the chalk. The depth was 2463 feet. It was his belief that the location was west of the fault.

#### Chapman's Alleged Pal Is Under Arrest.

Walter Shean wanted to be a bad man, so he left the home of his millionaire father in Buffalo, N. Y., to try burglary, according to the charges of the New Britain, Conn., police, who arrested him as an alleged accomplice of Gerald Chapman, master criminal, wanted there for killing a policeman who caught him blowing a safe.

#### CAMPAIGN CARS COMPARED BY POLITICAL WRITER

CHICAGO, Oct. 17.—Behind the scenes the picture of this presidential campaign is just the opposite to what every one believes it to be.

Hurling through the night over the Prairies of Illinois, a special train is bearing the caravan of John W. Davis, the democratic nominee. In the baggage car are a corps of stenographers, whaling away at a mimeograph machine turning out the evening's speech. In the next car newspaper men are hammering at portable typewriters, writing "the politics of the situation."

In his private car, John W. Davis is doing his nightly dozen to the prompting of Jim Cullen, the prize fight manager who primed Bill Brennan, the late pugilist, for scores of ring battles over a period of six years. It is "Davis, the fighter," training for the next day's battle.

In another train through the endless wheat fields of the Dakotas, is a far different picture. The stenographers are there, the newspaper men are there, but in the private car that swings on the end sits Robert M. La Follette, nearly 70 years old, with his sons, Philip and Robert, Jr., and other advisers grouped around a table in a smoke-filled compartment.

His physician, Dr. Colver, a throat specialist, is asleep in an adjoining cubbyhole-like room while his patient—whom some have said would break under the strain of incessant campaigning—is staying up planning the morrow's battles. It is La Follette the careful politician.

"I think I could match Davis with Jack Dempsey tomorrow," Cullen told the United Press.

"Senator La Follette's health shows not the slightest impairment and his condition is perfect," Dr. Colver said.

Traveling with each of the candidates in their campaign has developed evidences of their opposing tactics. La Follette prepares set speeches with his son nearby to see that he does not unwittingly exert himself. Davis speaks without preparation. He sizes up his audience when he goes before it and in a few moments decides upon his methods of attack.

On the platform La Follette is full of fire. Davis is quiet and careful of diction. His advisers recently accused him of a "supreme court manner" and asked him to "take off his kid gloves." But his answer was "I am not that kind of a campaigner and I don't want to be that kind of a president."

#### DAVIS CONFERS WITH LEADERS IN ILLINOIS CAUCAS

CHICAGO, Oct. 17.—John W. Davis held a series of conferences with George Brennan and the Illinois leaders today as he prepared to wind up his assault upon this state and move southward into new territory.

Brennan is optimistic about the outcome here. He avoids definite predictions but insists that "there are three weeks yet before the voting begins."

Davis has three speeches scheduled during the day at small meetings. A strenuous effort is being made to put over the local, county and state democratic tickets.

Tonight he will depart for St. Louis and his present plans call for speeches in succession at Nashville, Louisville, Evansville and Cleveland. He may stop in Cincinnati if arrangements are made.

In a speech at a rally in the auditorium here last night Davis reiterated his declaration against the Ku Klux Klan in answer to a heckler and chided President Coolidge for failing to answer the same question.

#### Westminster Has Talented Woman On Its Lyceum

"Irene Bewley" is the first attraction listed on the lyceum course at Westminster College. She is declared to be a born entertainer. Like Topsy, she just "grewed" to be an entertainer. You feel that fact from the moment of her appearance on the platform. The eye's first critical appraisal registers delight, the ear adds its testimony of pleasure. Then the mind and heart, in the music of her voice, the ease and naturalness of her method, the sure intuition of her visualization, the consummate artistry of her interpretation, place their swift o. k. upon the judgment of eye and ear. That indefinable thing called personality reaches out and ties the unseen chords between the artist and the audience. Miss Bewley disappears. Behold the characters she presents, changing with kaleidoscopic swiftness, peopling the stage! Suddenly it dawns upon you that here is a performance to be enjoyed rather than to be endured, as one critic has aptly put it, and you relax with a happy I-like-her-immensely feeling to commend the truthfulness of the observer who first called her an entertainer. She is all of that, and a rarely good character interpreter as well. She may have limitations, but her program gives no hint of it. The understanding mind and sympathetic heart shine through all her work, illuminating alike the humorous, the pathetic, the dramatic. Personally able—a Tennessee-New Englander delightful, helpful, generous, reasonable with a rugged naturalness and a culture of the real and abiding sort—we commend her to the public as possessing those charms of personality, temperament and talent which proclaim her the ideal entertainer.

#### MEXIA MAN RIDES IN THE BIG SHOW

Fred Karner happened to one of his usual unusual experiences on Circus day. He was in the oil field on a mission for Colonel A. E. Humphreys and while en route back to town, overtook a boy and a girl who were walking this way. He invited them to have a ride, which they accepted. They stated that they were coming to the circus to see their brother ride. He was Linzie Roberts, one the best equestrians in the circus and had sent the members of his family tickets for the day. They live in the oil field.

SAN ANGELO—A new power unit of the local electric lighting company that cost \$120,000 and increases the capacity of the plant to more than present needs of the city has been completed.

#### Golf Tournament For Patterson Cup Starts On Monday Afternoon

The third golf tournament for the L. S. Patterson silver cup will begin Monday, October 20th, at the Mexia Country Club.

These tournaments are creating much excitement and enthusiasm among the local club members, as a new trophy winner is a monthly occurrence. Allen Hatch was the first winner of the loving cup, Vincent Gantz was the second winner and present holder of the cup. About forty contestants have been on hand at each of starts, out of which sixteen of the lowest scores play off an elimination contest until the winner is decided upon.

#### NOVEMBER GRAND JURY LIST IS GIVEN FOR COUNTY

The following is a list of the Grand Jury for November term of the 87th. District Court, Limestone County:

- R. M. Crail, Groesbeck.
- Dean Cox, Mexia route.
- W. M. Welch, Kosse.
- Tom L. Cox, Mexia.
- Ed Hitt, Mexia.
- L. C. Hardison, Personville.
- J. T. Camp, Big Spring.
- W. C. Truett, Kosse route.
- H. H. Alexander, Delia route.
- Lee Nance, Thornton.
- C. E. Prince, Coolidge.
- Dewitt Todd, Kosse.
- P. F. Ferguson, Groesbeck, route.

Jno. Douglas, Mart route.- Wilmer Jackson, Teahuacana.
- E. H. Hines, Groesbeck.

#### HEAVY WINDS ARE ENCOUNTERED BY NAVY DIRIGIBLE

SAN FRANCISCO, Cal., Oct. 17.—Proving her air worthiness in an all night battle against strong headwinds the United States navy dirigible Shenandoah reported her position at 1:15 a. m. today as 50 miles south of Monterey.

The Shenandoah left San Diego yesterday morning on her flight to Camp Lewis, Wash.

#### Shenandoah Passes Over Golden Gate Headed Northward

SAN FRANCISCO, Oct. 17.—The Shenandoah, which was scheduled to visit here, passed twenty miles off the Golden Gate between 5 and 6 o'clock this morning, proceeding northward. A desire to make up time lost in fighting gales caused the elimination of the scheduled visit.

#### ELECTRIC GROUND CABLE MAY GUIDE AEROPLANES

LONDON, Oct. 17.—The British Air Ministry is now experimenting with an electric guiding cable for aircraft, which may be the forerunner of definite aerial routes possible for night flying and flying through fog. The pilot, from instruments before him, would be able to tell when flying directly over the cable laid along the ground, and the device would automatically correct the direction of the flight of an aeroplane which was off the set route. With the completion of such a scheme it would be possible to establish air routes as definite as railroad lines.

SAN ANGELO—Extensions of the lines and service of the San Angelo Telephone Company to meet the growth of this city are under way at a cost of about fifty thousand dollars.

ACKSONVILLE—A white way consisting of fifty-one ornamental lights in the business section of this city has been contracted for by the city authorities.

#### CASH COLLECTED TO DATE OVER ONE HALF TOTAL

CHICAGO, Oct. 17.—The campaign budget of the republican national committee totals \$3,000,000, William Butler, national chairman, told the Senate Campaign Investigating Committee here. Of that amount \$2,500,000 is to be used for the national campaign and the balance in congressional and senatorial campaigns, Butler said. The cash collected to date is around \$1,700,000, he advised the committee. Butler said he expected to collect all the three million dollars before election day.

#### CORSICANA MAN MAKES OIL DEAL IN FALLS

MARLIN, Texas, Oct. 17.—A drilling contract between Fred Allison and W. R. Jones and J. A. Lockett, in connection with the test being sunk for oil on the Marlin Grocery Company lease between Marlin and the Brazos River has been filed for record at the Falls county Clerk's office.

In exchange for use of a rig belonging to him, Allison received a lease on 100 acres of land, 50 acres of which were located in a tract adjoining the acreage on which the well is being put down on the northwest, 25 on the southeast and 25 on the east. In return, Jones and Lockett agree to sink a well to a depth of 1,500 feet.

#### WHEELER MAKES FIRST SPEECH IN TEXAS AT EL PASO

EL PASO, Texas, Oct. 17.—"The Democratic party, for the moment, is almost non-existent in the west" Senator Burton K. Wheeler, independent vice-presidential candidate, declared in his first Texas address here last night in which he appealed to democratic voters to support the Independent ticket.

Wheeler chaired the leaders of both major parties as "figureheads of Wall Street" and predicted that the third party would have the support of progressives of both divisions.

"I was elected to the United States Senate as a democrat, but after witnessing the democratic national convention in New York, I am appealing to you as an independent."

"Never in its history did the democratic party, my party, have a greater opportunity for service to the people presented to it. The masters of the republican party had declared in national convention that the course which had led to unspeakable corruption of the last three and a half years was a good enough course. So doing they offered the democratic party a golden opportunity to rescue the government from the political brigands who have had it by the throat. "What did the democratic party do with this opportunity? It nominated John W. Davis, attorney for the house of Morgan—chief among masters of the republican party" Wheeler charged.

"There must be a progressive party in this country to resist the reactionary republican party. It rests with the rank and file of democrats to say whether that party shall be the democratic party" Wheeler declared, adding the charge that "democratic party managers were attempting to make their party merely a subsidiary of the republicans."

Wheeler's address here completed a day in which he had spoken in Albuquerque and made several other platform speeches in New Mexico. The candidate was scheduled to make a short speech at Dallas today and spend Saturday at Wichita, Kansas.

#### THE WEATHER.

Texas—Generally fair.

# Southwest Texas Farmers Coming To Mexia

## SPECIAL TRAIN IS DUE IN CITY NOVEMBER 18TH

On November 18, a Special Train of Southwest Texas Farmers from the counties of Jim Wells, Kleberg, Nueces and San Patricio will arrive in Mexia and the time that will be spent here will be announced in a future issue. These farmers are nearly all Texans who have lived or farmed in the various Texas counties they expect to visit, and some of them have not been to their old homes in many years.

These farmers are traveling in a special train which leaves Corpus Christi November 9th, and will travel via the S. A. & A. P. to San Antonio, M. K. & T. Ry. to Dallas, H. & T. C. Ry. to Sherman, T. & P. Ry. to Paris, Tex. Mid. Ry. to Ennis, H. & T. C. to Caldwell, G. C. & S. P. Ry. to Abilene and back to Corpus Christi via the Gulf Lines. They will stop at thirty five places for two or more hours of which this one is one.

This Farmers Excursion has with it the finest Moving Picture of Farm Life ever made which will be exhibited here. They also have with them one of the noted Regimental Bands of the U. S. Army which will give a concert at each stopping place.

The farmers and the public generally are invited to visit the train on arrival where they will also see Orange, Grape Fruit and Lemon trees full of fruit and some other products which are grown in the west country. The train will stay all night in Mexia.

## Let Old Nature Do The Beautifying

(By United Press)  
WACO, Oct. 17.—More sleep and less "makeup" is the advice of Miss Sallie Duncan, hostess at the main girls' dormitory at Baylor University.

The advice followed complaint of one of the co-eds that the university regulation requiring dormitory girls to retire at 10:30 p. m. prevented the nightly application of cosmetics.

"I want that all my girls should be as attractive as possible," she continued, "but a less generous application of the whitest of cosmetics and more sleep is the best beautifier on the market."

INVENTORS! HERE'S BIG CHANCE TO MAKE MONEY

ST. LOUIS, Mo., Oct. 17.—Here's a chance for inventors.

Richard W. Meade, president of the People's Motorbus Company, operating hundreds of buses in this city, wants a practical rain top for the double-decked buses.

"No satisfactory top for the dou-

## From Soup To - Structural Steel

It may seem a far cry from soup to structural steel, but Mrs. Jean Shavers of Terre Haute, Indiana is equally at home in the feminine avocation of creating a new and delicious soup, as in mapping out a successful campaign to place a large order of structural steel,—for setting steel in her vocation.

Here is one of her favorite soups—Cream of Lettuce.

Take 3 cups White Stock, 2 heads Lettuce, 2 tablespoons cooked rice, 1/2 cup Cream, 1/2 tablespoon Onion, finely chopped, 1 tablespoon Crisco, yolk 1 Egg, Nutmeg, Salt and Pepper to taste.

Remove outer leaves from lettuce and shred it. Cook onion 5 minutes in Crisco, add lettuce, rice, and stock. Add cream, yolk of egg slightly beaten, nutmeg, salt and pepper to taste.

Note: The reader may obtain free a new 1/2 hour cook book by addressing the National Cooking Service, 503 Fifth Avenue, New York City.

ble-buses over has been devised," Meade said. "These that have been tried in Chicago and other cities are not a success. Here's a chance for some inventor to try his hand. Somebody can make a fortune by inventing a practical rain top for these buses."

A. L. Higdon of the Higdon-McElroy Company was here from Lampasas Thursday.

## SKUNKS HAVE RABIES ALSO

(By United Press)  
GONALES, Oct. 17.—Bitten on the nose by a skunk while asleep in an old school house Boeving, a two-year-old son of H. McBrown was rushed to the Pasteur institute at Austin for treatment for rabies.

The animal came up through a floor of the school house and attacked the child. It was killed by

the father and an examination disclosed that it had rabies.

## SAYS SOOT CUTS DOWN EFFICIENCY OF FURNACE

(By International News Service.)  
ST. LOUIS, Mo., Oct. 17.—That one-tenth of an inch of soot on the interior of a modern home furnace cuts down the heat efficiency 50 per cent was demonstrated by a recent series of experiments conducted at Washington University here under the direction of Professor E. L. Ohle, of the mechanical engineering department.

Professor Ohle said the amount of

heat that can be sent through the average house or building depends to a large extent upon the absence of quantities of soot or dirt in the furnace itself.

Mrs. Lida May Lofland and daughter, Lucille, have arrived from Austin to keep house for her father, J. J. Beckman, during the absence of

## Marlin Bulldogs Meet Black Cats At Rimes Park

The Mexia Hi Black Cats left at 11:30 Friday morning for Marlin where they will play the Marlin Bulldogs in the first interscholastic league game that the Bulldogs have entered this season.

Coneh Poteet states that if defeated he has one consolation and that is that he is playing only by way of Groesbeck to Big Hill and from there to Marlin. 27 men are making the trip while many boosters are also going. The members of the squad that are making the trip are:

Felix Parker, Doyle Perkinson, Wilbur Hoelzel, Jack Corley, Wayne Thompson (Capt.), Robert Travis, Robert Wallace, Bernice Anderson, Reuben Storey, Bill Murphy, Jim Wright, Wayne Lucas, Rufus McKinzie, Marvin Bennett, Maurice Robinson, Carlos Clover, Dick Buford, Francis Benson, Jim Karner, Ed Wiggins, Rado Ward, Mill Aulds, Herman Dorsett, Sam Sewell, Weldon Wiggins, Murdock Masters, Jack Fugh.

The Cats are carrying Joe Arrington, local referee, who will officiate in the game there.

A telegram was received from W. B. (Dub) Kendrick and Robert (Buddy) Storey, former Mexia Hi Cats and who are now attending Rice Institute, Friday morning, wishing the team the best of luck in their game with the Bulldogs. Dub and Buddy were star performers on the Cat eleven for their four years in high school.

Marlin is confident of winning the game by a big score. The press carries the following item under the Marlin date line:

The Marlin Hi Bulldogs will take on the Mexia Hi Bobcats Friday afternoon at Rimes park here in the first interscholastic league conference game that the Bulldogs have played this season. With the good showing the Bulldogs exhibited against the A. and R. Reserves, holding them to a score of 7 to 6, two weeks ago, and last Friday playing the Southwestern Scrubs a score of 20 to 7 in favor of the Bulldogs, they are expected to make at least three touchdowns against the Bobcats without having their goal crossed.

With Coons and Spindle at guards, both weighing around 220 pounds, Rogers, Summers and Rip Collins at tackle. Bartlett playing in his usual splendid game at center, Charley Norwood, 6 feet, 2 inches, and "Hog" Hodges at end, the speedy Lenoir at fullback, the elusive and swiftly speeding "Burr" Russell and Captain Pyland at half, and the fast, swaying, sidestepping Turner at quarter, and number of subs for any position on the team with almost equal merits to these regulars, the Marlin Bulldogs are expected to go to the district meet and from there as champions to the State meet in class B.

Class B high schools are those which have a high school enrollment not exceeding 350 students, and the counties in the Marlin district besides Falls, are McLennan, Liméstone, Bell, Hill and Ellis. The dopsters give as logical contenders for the district championship Marlin, Belton, Mexia, Italy, Itasca and West.

### ALONG THE SIDELINES.

(By United Press)  
ANAPOLIS—A line-up averaging 191 pounds, the heaviest to ever represent the navy, will start against Princeton tomorrow, according to the official line-up made public today.

PRINCETON—Johnny Hull, scrub tackle has been promoted to "varsity" half back by Coach Bill Roper, replacing Murray Gibson in an effort to develop a punch in the Tiger eleven.

NEW HAVEN—Yale's line up for the Dartmouth game was still uncertain today as the varsity held their last practice.

CAMBRIDGE—After three days of hard drilling on defensive plays, coaches sent the varsity through stiff defensive work in preparation for the Holy Cross game.

WEST POINT—The army had its final workout for Saturday's game with Notre Dame and will leave today for New York.

HOUSTON — Louisiana University's gridsters arrived in Houston today for their tilt with Rice Institute on the local field tomorrow. Both teams are in fine condition, it was announced.

WACO — George Morris, first-string fullback, will be out of the line-up with an injured shoulder when the Baylor Bears tackle the Arkansas Razorbacks here Saturday.

FAYETTEVILLE—"My men are in tip-top condition" Coach Schmidt said as he loaded twenty-two Razorbacks on the train here last night en route to Waco for the locals' first conference game Saturday.

AUSTIN—More than a thousand Texas rooters were scheduled to

## IS ROCKEFELLER'S DAUGHTER TO WED?

EDWIN D. KRENN & MRS. EDITH MCCORMICK

The marriage of Mrs. Edith Rockefeller McCormick, of Chicago, daughter of John D. Rockefeller and divorced wife of Harold McCormick, Chicago multimillionaire, to her "sympathetic Swiss psychologist" wooer, Edwin D. Krenn, is confidently expected by Chicago society. Krenn, an architect, borrowed enough money from Mrs. McCormick to go into the real estate business in Chicago. Now he is a millionaire, and, although twenty years her junior, is paying ardent court for her hand.

Mr. and Mrs. Jesse McLendon returned at noon Friday from their visit in New York, Washington and other Eastern points. Mr. McLendon reports getting his money's worth, seeing the world's series. His picture shaking hands with Fred Marberry at the Polo Grounds ap-

peared in this paper Wednesday. Mr. Marberry beat Mr. McLendon back home. Mr. and Mrs. J. K. Hughes will remain in New York for a while longer.

Rev. E. H. Hudson has returned from Abilene where he attended the

## Astonishing Health-Building Powers of

# KARNAK

Proven in Case of Texas Woman—  
"It's a Blessing," Declares Mrs. Armstrong

Miserable with intense stomach suffering both day and night, and so weak and rundown that she could hardly get about the house, Mrs. Amanda Armstrong, 1822 Trunk Ave., Dallas, Texas, tells how Andre's phenomenal new medicine, Karnak, has overcome her troubles and made her well and happy again. Just another demonstration of the remarkable health-building powers of this great, new medicine.

"Before I got Karnak I was just plumb down," is the way Mrs. Armstrong characteristically expresses her condition, "and wasn't able to do a bit of my housework. I had such terrible cramping pains in the pit of my stomach that big drops of perspiration would just roll down my face. These pains would extend clear back through my shoulder blades and were so dreadful I could hardly get my breath. I was simply in agony from bloating and suffering for hours after every meal, and at times I just didn't see how I could live through it. I was dreadfully nervous, too, and could scarcely get a wink of sleep."

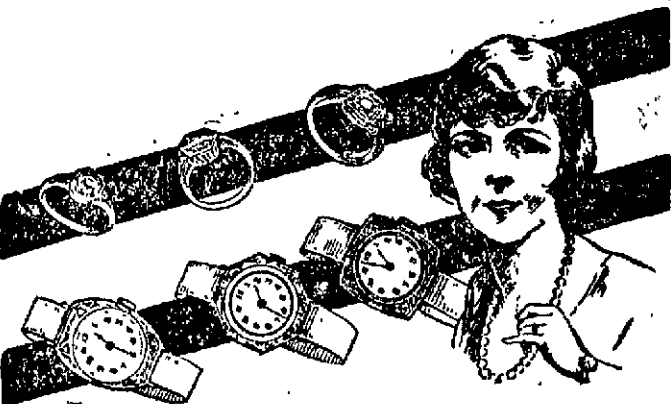

"But I haven't had a single attack with my stomach since I began using Karnak. I have a splendid appe-

tite, eat anything I want, and my food digests perfectly. The pain, bloating and suffering is all gone. I sleep like a healthy child every night, and now do all my housework. I will praise Karnak the longest day. I live for the wonderful blessing it has been to me."

Karnak is sold in Mexia by the Mexia Drug Co.—(Adv.)

## Speaking of Christmas—

## WE HAVE WHAT YOU WANT WHEN YOU BUY YOUR GIFT

—Pretty soon you will be thinking about that Gift for "The Girl."

—Now here's where we can play a very important part in assisting you.

—You just let us know what you want and we shall certainly see that you get it. And if you don't know just what to get "her" we'll be glad to assist you by making suggestions.

—Call on us when we can serve you.

Synod of his church. G. E. Mitchell was unable to attend on account of sickness. Rev. Hudson was accompanied back to Mexia by his brother, John B. Hudson who will occupy the pulpit Sunday at the First Presbyterian church.

Mrs. J. S. Seale and Mrs. Roland Gardner accompanied Mrs. Dixon to Waco Friday. Mrs. Dixon, a daughter of Mrs. Seale, has been spending a delightful visit here.

All of the pastors of all of the churches in Mexia and their official families are stressing "Go to Church Sunday." The date is the 19th. Be in your place.

Sunday is "Go to church Sunday. Don't fail.

Every town and community in this part of Texas were well represented at the Circus Thursday.

## OUCH! BACKACHE RUB LUMBAGO OR STIFFNESS AWAY

St. Jacobs Oil stops any pain, so when your back is sore and lame, or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, pour a little in your hand, and rub it right on your aching back; and by the time you count fifty the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless, and doesn't

THE NEWS PUBLISHING COMPANY  
TELEPHONE 146

We want the news, all the news of all the people, while it is news, and requests the readers to send in or telephone 146 or 361 news items and personals of their friends and acquaintances.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia. I WILL"

DID YOU KNOW THAT—

The United States has added to its population at the rate of 7,000,000 in four years and the author of the article reminds the reader that 7,000,000 is the population of greater London; that it is larger than the total population of Australia; that it is nearly equal to that of the whole of Canada.

America has a home market greater than any of the two leading nations of the world beyond the American border line. An addition of 7,000,000 to the population in four years increases the home consumption of all the products of the field and the factory.

There is no reason why the American farmer should not receive the same fair return on his product that the American manufacturer receives on the finished output of mine and factory.

This is what John W. Davis pledges himself to work out if the Americans elevate him to the highest office in their gift.

CENTRAL TEXAS PRESS  
By N. P. Hous

THE BIGGEST SHOW

Mexia people have just seen the biggest show now traveling the Ringling Bros. and Barnum & Bailey aggregation—and it is truly a great show, but it is not the biggest ever. The biggest and best show that ever "made" Texas was on the road about fifty years ago. It was a one ring affair and showed on a lot smaller than a city block, with John Robinson as the star bareback rider and Dan Rice as the single clown. "We" carried water for the troupe of elephants, (one big fellow) and thereby earned a ticket to the show. That was truly the "biggest and best show that ever was," or ever will be.

Bluffs are all right to produce scenic effects but they are not worth much in business or draw power.—Sam Miller in Mineral Wells Index.

Don't be so sure of that. We have "heard" of "bluffs" in a draw poker game that beat three aces, and sometimes even a flush or a full. You never can tell just what the other fellow holds by the size of his bet—unless you call him.

This item appeared in the Houston Post-Dispatch 25 years ago col. 1: "Clarksville Times: Ed Green's automobile is all right for the as-

ITALY'S FUTURE RULER REPORTED ENGAGED

PRINCE JOSEPH AND PRINCESS MARIE

The engagement of Prince Joseph, heir to the Italian throne, to Princess Marie of Belgium, the expected bride being Princess Marie Jose, daughter of the Belgian rulers. While there is no official confirmation by either of the royal families, it is believed in well informed circles that the date of the engagement will be announced shortly.

And if you should be so lucky as to escape the wild bullet, be careful anyway lest you get bumped off by a wild fiver. Be careful.

We Do.

Who remembers when public school pupils devoted more time in learning to properly spell than they devoted to athletics?—Gainesville Register.

When we were attending a country school in the winter time over in East Texas, when we were not engaged in some sort of controversy

with the teacher, we were busily engaged with an old blue back speller. All the athletics we had was a game of town ball or four-cornered cat, at noon and recess and we had some of the best spellers in the whole county. A young high school student called at our office last week and wanted to know what she should study to become a newspaper woman. "Learn to spell" was the first thing we told her to do. She went away kinder sorrowful. — Mineral Wells Index.

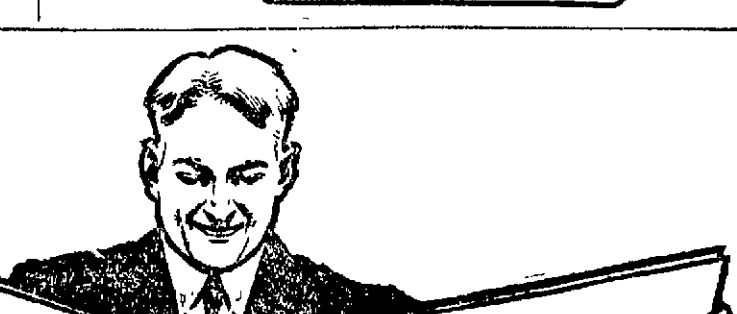

"Tis true, 'tis pity, and pity 'tis,

"tis true." There he in this day of high school athletics and such, graduates who cannot properly spell "accommodate," "accumulate," and even such simple words as "kat," "dawg," and many others. The old blue back speller should be reinstated in our schools.

Tax paying draweth night. We pay taxes to hire people to attend to our public business and to make us behave ourselves. The Hustler, for one, bellies our "protection" comes too high.—Thornton Hustler.

After paying the salaries of the various officers and "boards," there is very little left of our tax money for "protection," and as a result the protection we get is minor, while law breakers are running hog wild all over the country.

FRENCH WEATHER, COLD,  
HELPS FEW, INJURIES OTHERS

PARIS, Oct. 17.—Persistent rains and cold weather, which have made many a good soul lose his disposition here this Summer, nevertheless

made good business for the Paris theatres and other indoor amusements. The gross revenue for the month of August showed an increase of over a million and one-half francs as compared with the receipts of last year.

Then the unusual cold, which has been the despair of the ice-cream dealers, has been a source of joy for the cafes which sell hot coffee and chocolate.

Bathing establishments and outdoor restaurants along the river have been practically empty all summer. But the umbrella sellers have no reasons to complain.

## CISCO-ABILENE GAME ATTRACTS WIDE INTEREST

By ROY B. HENDERSON.

AUSTIN, Texas, Oct. 17.—With a doubt, the game in the University of Texas interscholastic League football race to which the eyes of Texas are turned this week is the Cisco-Abilene affair to be played at Abilene Friday afternoon. Cisco has the strongest team in the history of the school and unless the Eastland county boys get stage fright from such formidable competition, the state champions of '23 may be forced to take some of the medicine they so freely applied to all comers last year.

Little less in importance is the Vernon-Wichita Falls game at Wichita Falls Saturday afternoon. Vernon always has been a real contender for the honors in her district, and Coach McCallum and his Coyotes will do well to be on the alert.

Other games this week of real importance are: Amarillo-Plainview Breckenridge-Ranger, Paris-McKinney, Athens-Palestine, Yorktown-Kenedy, and Granger-Taylor.

The following are also scheduled to meet:

Conference A—Brownfield at Lubbock, Bowie at Electra, Comanche-Stephenville, Brownwood at Eastland, Ft. Worth Central at Bryan High Dallas, Mineral Wells at Stawin, Polytechnic (Ft. Worth) at Gainesville, Diamond Hill at Waverford, Bryan at Waco, Greenville at Terrell, Denison at Sulphur Springs, Oak Cliff vs. Arlington Heights.

Marshall vs. Gilmer, Nacogdoches at Jacksonville, Tyler at Lufkin, Mineola at Grand Saline, Texarkana at Shreveport, Galveston at Beaumont, Houston Central at Eagle Lake, San Marcos at Breckenridge.

Conference B—Sec. 1.—Shamrock at McLennan, Pampa vs. Canadian, Memphis at Hedley, Canyon at Hereford, Higgins at Perryton, Clarendon at Claude, Tulla vs. Slaton, Panhandle at Miami, Dalhart at Clayton.

Sec. 2.—Spur at Ralls, Matador at Floydada, Post at Snyder.

Sec. 3.—Gorman at Desdemona, Rising Star at Carbon, Haskell vs. Stamford, Anson at Sweetwater, Big Spring vs. Colorado, Dublin at Hamilton, Clyde at Albany.

Sec. 4.—Wichita Falls Junior High at Henrietta, Graham at Decatur, Quanah at Paducah, Seymour vs. Kunday, Alvord at Bridgeport.

Sec. 5.—Wills Point at Kemp, Rockwall at Kaufman, Honey Grove at Commerce, Leonard at Bonham, Highland Park vs. Grand Prairie, Wolfe City at Farmersville, Cooper vs. Ladonia.

Sec. 6.—Winnshorn at Longview.

Sec. 7.—Odessa at Midland, Barstow at Ft. Stockton, Marfa at Alpine.

Sec. 8.—San Sabu at Mason, Brady at Coleman, Boerne at Fredericksburg, Lampasas vs. Llano, Kerrville at Sinton, Rockdale at Santa Anna, Ballinger vs. Menard, Richland Springs vs. Cherokee, Marble Falls at Bertram.

Sec. 9.—McGregor at Moody, Ferris at Itasca, Dawson at State Home, Lorena vs. Mart, Marlin vs. Mexia, Elgin at Bartlett, Belton vs. Killeen, Clifton vs. Meridian, Mt. Calm at West.

Sec. 10.—San Augustine at Jasper, Center at Tenaha.

Sec. 11.—Cotulla at Laredo, Devine vs. Brackettville, Del Rio at Uvalde, Eagle Pass at Sabin.

Sec. 12.—Gonzales vs. Nixon, La Grange vs. Smithville, Lockhart at San Marcos, Giddings at Georgetown, Fintonia at Bastrop (Bastrop Fair).

Sec. 13.—Bryan at Cameron, Huntsville at Brenham, Bedias Navasota, at Caldwell, Franklin at Kearne, Madisonville at Conroe.

Sec. 14.—Humble vs. La Porte at Humble, Alvin at Freeport, El Campo at Eagle Lake, Houston at Eagle Lake, Wharton at Bay City, Harrisburg at Houston Junior N. Side, Beaumont South Park at Daisetta, Texas City at Angleton, Rosenberg at Richmond.

Sec. 15.—Victoria vs. Cuero, Beeville vs. Runge, Lytle at Foted, Alamo Heights vs. Somerset, Edna vs. Palacios, Port Lavaca at Goliad, Smiley at Karnes City.

Sec. 16.—Mercedes at Harlingen, Weslaco vs. Rio Hondo, Mission at Donna, Brownsville vs. McAllen, Edinburg vs. San Benito, Pharr vs. Weslaco, Soudville at Kingsville.

BANK ROBBERS AVERAGE

\$70 AN HOUR IN ST. LOUIS

ST. LOUIS, Oct. 17.—Bank robbers in this vicinity since January 1 have averaged \$70 an hour, according to statistical-minded investigators.

In seventeen holdups the bandits got \$222,872 from banks and trust companies in St. Louis and suburbs. This is an average of \$850 a day since January 1, or \$70 an hour, every twelve hours.

B. L. Jayne of Corsicana was here Friday.

## SEVEN PARTIES BANNED IN INDIANA

(By United Press)

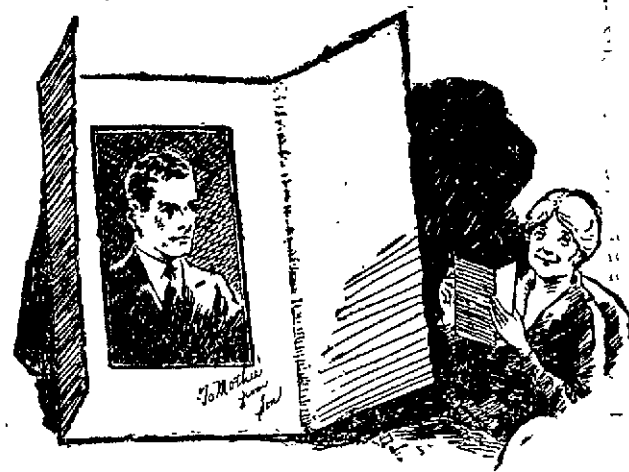

INDIANAPOLIS, Oct. 16.—An injunction preventing the State Board of Election Commissioners from putting tickets of seven political parties on the Indiana ballot was granted in the Superior Court here. The action definitely rules the parties out of the general election. It does not affect the independent candidacy of Senator LaFollette for the presidency. The parties banned are the

## ATWATER KENT RADIO

Back of Atwater Kent Radio there is a tremendous factory with laboratory and manufacturing facilities that are not surpassed in the whole world—  
—there is the spirit and guiding impulse of master workmanship—  
—there is a nation-wide reputation for precision—and a recognition of the name "Atwater Kent" as a standard of excellence—  
—there is the accumulated experience of more than a quarter of a century in the manufacture of precision electrical instruments—  
It is these qualities and high standards that have produced leadership for Atwater Kent Radio—and have made it what many consider perfection in radio construction.

# FORD ROADSTER TURNS TURTLE ON SHOW DAY

Chief of Police Albert Maco states that Thursday was the quietest circus day ever witnessed in Mexico in the way of disorderly conduct and drunkenness. Not a single arrest being made from these complaints; only one or two cases of petty thievery being reported. A large number of out of town cars were in the city last night and the streets were crowded practically all day, but only minor collisions occurred. One Ford roadster turned over on the corner of McKinney and Hunt streets about 7:15 Thursday morning but no injuries were reported. With the assistance of a few passersby the "lizzie" was assisted to her feet and went on her way rejoicing.

## SOUTH AMERICAN LAND SWINDLES HIT U. S. BUYERS

WASHINGTON, Oct. 16.—American farmers of the middle west and far west were warned recently by the Department of Commerce to be wary of proposals to invest money in South American lands. The department's warning stated that through diplomatic channels, it has been learned that several American colonization schemes have been launched in the Southern republics. Already, according to the warning, many American farmers have been defrauded of millions of dollars through the rosy pictures of the cheap land offered for sale for a few cents an acre, which in the majority of cases have proven worthless. Much of the land offered for sale, the warning declared, is so far removed from transportation that it is useless for farming purposes, even though it is of the most fertile character. Some of the land has proven to be rocky and under water.

## ELECTRIC GROUND CABLE MAY GUIDE AEROPLANES

LONDON, Oct. 16.—The British Air Ministry is now experimenting with an electric guiding cable for aircraft, which may be the forerunner of definite aerial routes possible for night flying and flying through fog. The pilot, from instruments before him, would be able to tell when flying directly over the cable laid along the ground, and the device would automatically correct the direction of the flight of an aeroplane which was off the set route. With the completion of such a scheme it would be possible to establish air routes as definite as railroad lines.

## LOST CHILDREN LOCATED BY RADIO BROADCASTING

LOS ANGELES, Oct. 17.—Radio is proving the most effective method here of locating lost children. Within the last few weeks ten children who strayed from home have been located by broadcasting.

B. R. Strange of Cameron was on Friday.

## MEN AND WOMEN IN NEWS SPOTLIGHT.

Above: ELIZABETH GORMLEY & MRS. JULIA DAVIS ADAMS.  
Below: RUBY POE & DONALD MACKINNON.

Mrs. Julia Davis Adams, of Copenhagen, Denmark, daughter of John W. Davis, in an interview in New York City, declared she would vote for the Democratic Presidential nominee, not because he is her father, but because his fundamentals are right and his sympathies are broad. A suspended sentence for disorderly conduct was meted out to New York court to Norman Seale, whom Ruby Poe, Broadway dancer, and great-grandniece of Edgar Allan Poe, charged with making love with a gun during an automobile ride. Explaining her \$250,000 breach of promise suit against Thomas A. Hanna, multi-millionaire builder of New York, Elizabeth Gormley, twenty-year-old divorcee, declared he was "bald but ideal." Hon. Donald MacKinnon, Commissioner in the United States for the Commonwealth of Australia, is shown leaving the White House in Washington, where he said goodbye to President Coolidge after resigning his post.

## Spindletop First To Improve Rotary

It has been stated that rotary well drilling was invented in 1846. If so, its early development was slow, for the first oil well in this country was drilled by the percussion method in 1859, by Col. E. L. Drake at Titusville, Pa. In 1888, however, the rotary method was employed in a crude way in the Gulf coast country. Two strings of pipe were used, the one to rotate the drill, and the other to wall up or ease the hole as it progressed. During the next year it was discovered that thick mud, the more plastic the better, pumped into the hole through the drill stem, would support the walls until the drilling was finished, if the hole was not too deep, thus allowing the casing to be set afterward in one operation. The discovery, credited to B. Andrews, sr., of New Orleans, La., is the most important in the development of the rotary method. From this time the process was further developed and improved in the oil fields of Louisiana and Texas, where, it is stated, in 10 years, more than 10,000 wells were successfully completed in formations in which it was impossible to drill and maintain a hole by any other system. In 1900, Captain J. F. Lucas began drilling at Spindletop, near Beaumont, Texas, with a rotary rig, and in January, 1901, he brought in the first oil gusher drilled by the rotary method. This was after repeated failures had been made with cable and pole-tool rigs. It may be, too, that the combination method was first used here, for after this success, the softer formations were drilled with rotary machines, and

the hard caprock was penetrated by cable-tool rigs.

Another discovery of importance, and the one which really made the rotary method a serious competitor of the cable-tool system in moderately hard rock, was that of the Hughes rotary rock bit. The bit was invented by Howard R. Hughes, and its manufacture started in 1909 at Houston, Texas. No other rotary bit is so effective in the harder strata, and its invention has assured the adaptability of the rotary method of drilling in fields where other than soft strata occurs. In the years 1906, 1906 and 1907 its use spread all over the world, and during this period it was introduced into California. Here the requirements for drilling considerable deeper wells than the average depth in Louisiana and Texas necessitated the design and construction of heavier machines.

Each succeeding year has brought new improvements and a gradual development of still heavier machines until now the weight of the rotary of the heaviest machine, for example has increased nearly fourfold over

# Ten Reasons Why You Should Invest In The Preferred Shares

of the

## COMMUNITY POWER AND LIGHT COMPANY

1. The Company supplies necessary service to a continuous and growing demand, through the entire year. This safeguards your principle.
2. There is actual physical value in property in excess of every preferred share sold by the Company.
3. Management is in the hands of men who have devoted their lives to the industry, and whose methods and honesty you can check by personal contact with the Company at home.
4. Business and earning show a healthy growth over a long period and are free from violent fluctuations.
5. Returns on the investment are mailed to your address, on the first day of every February, May, August and November.
6. The Company owns efficient plants in Missouri, Kansas, Arkansas and Texas. Gas, Electricity, Water and Ice being distributed to about 80 communities.
7. The Company's operations are supervised by the State, thus insuring fairness to both customers and investors alike.
8. Preferred shares are exempt from the Normal Federal Income Tax.
9. The Company will rehandle sales for customers, thus giving the investor an opportunity to turn his shares into cash if needed.
10. THE COMPANY HAS NEVER MISSED OR DELAYED A PREFERRED SHARE DIVIDEND.

1. Price \$92.00 per share, and accrued dividends.
2. Dividends of \$1.75 per share, paid on the first day of February, May, August and November.
3. Shares can be secured from any employee of the Company, or at any office.

Girls' Frock of Charming Style

For the Smart Velvetess  
Designed in the favorite straight-line mode with dainty trimming of contrasting material and embroidery. This little frock of nut brown velvet is both charming and practical.

In this model there may be a division in the matter of plaits, but both sides line up unanimously for embroidery which is applied at the lower edge of the skirt in cherry tones of tan, orange and brown. The dress calls for 1 1/2 yards of velvet 36 inches wide for 8-year size, with 3-8 yard of plain silk or satin for the trimming, which consists of roll cuffs and a turn-down collar with a pretty string-net at the back. The side seams are held together with arrow heads made of brown

embroidery silk. Arrow heads are very pretty when they are well made, so that the home dressmaker would do well to try them. Each detail of construction is illustrated in the accompanying diagram. First run a colored thread the exact shape and in the place where the arrow head is to be, bringing the thread out from the underside of the work at the left hand corner. Next, carry the thread upward to the point of the angle, taking a short, straight stitch under the arrow head. Carry the thread down to the right hand corner, taking a straight stitch underneath (Fig. II), bringing the point of the needle out at the right of and as near as possible to where the thread was brought through first. Carry the thread upward, taking a short stitch across and underneath the top of the arrow head (Fig. III). Be sure to place the needle so that the thread falls outside of the stitches first made so that the point of the needles comes out of the diagonal thread.

Making An Arrow Head

the needle to the left of the thread at that point. Bring it out to the right of the left hand diagonal stitches. Be sure to take the stitches at the top of the work outside of the previous stitches. The stitches at the lower part of the arrow head are all taken inside of preceding stitches.

## Leaves Savings To White Friends

(By United Press)  
BRENHAM, Oct. 17.—Having a premonition that he would not live long, John Van Ness, aged negro, dug up about \$4,000 in coins out of the hen house in his back yard, deposited the money in a Brenham bank and made his will leaving all his property to his "Good Friend" Reese Lockett.

Both Van Ness and his wife had been servants in the Lockett household for many years and appreciated the kindness of their employer. Van Ness died recently while on a visit to Cleburne.

# PASTOR OF CITY TEMPLE SPEAKS SUNDAY NIGHT

Rev. L. D. Young D. D., pastor of The City Temple of Dallas and retiring chairman of Executive Committee of Synod filled the pulpit at the Central Presbyterian Church Sunday night.

Dr. Young was at his best and while the congregation expected a great and soul stirring message they were moved beyond this expectation and feasted upon theological theses not often enjoyed.

His lesson was a spiritual feast taken from no special text. The sermon was an insight into the real man Paul The Apostle. The subject matter was stated by him as "The man with Five Handicaps and The Five Crowns." "The Apostle Paul."

Paul, Dr. Young stated, had as his first handicap one of physical infirmity. Just what this was no one at this time knows. Perhaps it was an incurable malady, but it fastened it's self upon this man of God so that he often referred to it and it's effect on his life was ever apparent. Then came his moral handicap. The speaker stated that no man had a darker past than did Paul. His morality was at a low ebb even sinking into blasphemy. His third handicap was that "he got off to a slow start." He was slow to see the work that was ahead of him and to grasp it. Then his early education was neglected and his fifth and last and perhaps greatest handicap was that he never saw Jesus Christ in the flesh.

This last drawback in the life of Paul left him without that insight and inspiration that the personal touch of the Saviour of Man stamped upon all who came within halting distance of him.

Dr. Young spoke with feeling regarding each of these handicaps and made it apparent that he had given the matter much thought and study. He then brought out the Five Crowns that were placed on the brow of Paul. First was the Crown of Life, then of Rejoicing for it seemed in all things Paul rejoiced. Then came the Crown of achievement of Contentment and finally of Glory.

He stressed each of these in his forcible manner and convincing argument. Dr. Young asked each and every member of the congregation to seek out his own handicap and to try and see if it could be overcome or mastered in some way. He stated all of us had some handicap in life—some have two or more and even five as Paul had and yet look at the Five Crowns he finally achieved. Quiet a lesson to be taken from this man who was freighted with so many handicaps. Dr. Young also stated that Paul was the greatest among them all save His Christ and gave utterance to words that only Christ his Saviour surpassed.

He also referred to the suffering of the day. Both physical and mental as well as spiritual.

# PERSONAL BUDGET AID TO SUCCESS THROUGH THRIFT

By S. W. STRAUS, President American Society for Thrift

ONE of the most successful business men of our day, recently said: "Early in life, when a poor boy, I formed the habit of jotting down a record of every penny I spent. This taught me the value of system and frugality. I soon found myself able to save a little money. As I grew I developed habits of general thrift from this simple beginning, and, with a small amount of capital thus available when I reached the age of maturity, I was able to take advantage of opportunities that led to subsequent success."

While it may seem a waste of time to laboriously keep a record of every cent one spends it is a fact that many of our successful men hold themselves to this rigid discipline.

Every business concern keeps a strict account of every penny received and spent, and a business which transacted its affairs in any other manner would be most incapably managed. The same principle should hold true in the case of the individual.

Carelessness in small things leads to carelessness in larger affairs and likewise the careful handling of small amounts of money fits one for the greater and larger responsibilities of life.

The value of budget keeping is especially valuable to the young for the habit thus formed in life is quite apt to be carried along as a permanent routine.

If you are endeavoring to get ahead in the world and be prepared for the rainy days that come into all lives, adopt first of all the rule of keeping an accurate daily record of your expenses. You will find that by the adoption of a budget system your success in thrift will be made doubly easy and you will soon be surprised at the difference these systematic practices make in the amount of your savings.

A few pennies or a few dollars wasted here and there do not seem to amount to much at the time they are spent, but when you see the record of these extravagances in cold figures they assume their true proportions and significance. Make your thrift practices conform to a concise, definite system.

His message was well received and was seed sown in fertile soil that will bloom and give forth much fruit after it's author has taken on his last crown and joined the Paul of his lesson.

Immediately following the sermon the final session of the Synod was called.

# SALESLADIES AND SOLICITORS WANTED

At once, ladies to travel, demonstrate, and sell dealers for well known toilet goods manufacturer, \$25 to \$50 per week. Railroad fare paid. Can also use two local sales representatives. Experience unnecessary. GOODRICH DRUG CO., Omaha, Neb. A-17-1

# Hillsboro Calls Off Westminster Game

The Hillsboro Junior College called off the game to be played with the Westminster Wildcats on the Hillsboro gridiron this afternoon, Friday, Oct. 17th.

The officials of that school called Coach Chas. Lewis over the phone Tuesday and cancelled the game. No reason was given for their action, with the exception of the statement that their team was in no physical condition for the game on account of injuries.

This cancellation leaves the week-end blank for the Wildcats, who will have time for plenty of rest and conditioning before their clash with Kusk at that place next Friday, Oct. 24th.

PRAIRIE GIVES RELIEF.

TO PRODUCERS OF CRUDE OIL IN OKLAHOMA, KANSAS AND TEXAS:

The Prairie Oil & Gas Company will immediately resume paying in full as of October 3, 1924, under the terms of its regular division orders, for all oil run for its account, and the Storage Plan of July 17, 1924, is modified in accordance with this notice.

Owners of this Company's storage receipts, who desire to receive payment in cash for the oil covered by such receipts, are hereby notified that this Company will cash all such receipts, paying this Company's posted price at present in effect, as follows:

Below 30 degrees Beaume gravity 75c per bbl.

30 degrees to and including 32.9 degrees Beaume gravity 90c per bbl.

33 degrees to and including 35.9 degrees Beaume gravity \$1.10 per bbl.

36 degrees Beaume gravity and above \$1.25 per bbl.

In all cases where owners of storage receipts desire to take advantage of this offer to cash such receipts at the present market price, and do so, and surrender such receipts to E. T. Patterson, Treasurer of The Prairie Oil & Gas Company at Independence, Kansas, for payment on or before October 31, 1924, the accumulated storage charges of three cents per barrel per month will be waived.

This offer to pay for storage oil, with waiver of storage charge, will only apply to those receipts actually presented to the Treasurer of this Company on or before October 31, 1924. Any receipts not presented to the Treasurer of this Company, under the terms of this offer, on or before October 31, 1924, remain outstanding subject to the election and call of this Company under the strict terms of the receipts themselves.

In connection with the above announcement the attention of producers is called to the fact that production in the Mid-Continent Field is still large; the industry is just entering the low winter-period of consumption, and our market for crude oil is still inadequate to absorb our entire purchases. It is hoped that producers will not misconstrue the above action taken by this Company; such action is taken for the purpose of extending to the Company's patrons the largest possible measure of financial relief under the

# The Art of Beauty

By B. M. DOUGLAS

## DRAGON'S BLOOD REQUIRED FOR ANCIENT BEAUTY RECIPE

One day, however, Arnaldo chanced to save the life of an Italian child, and its mother in gratitude declared that he should have whatever he asked for as a reward.

"The secret of your beautiful hair, Madame," quickly replied the Frenchman, and so the story goes, she gave it to him.

This is the famous recipe: "Take of dragon's blood four ounces, of Arabian gum two ounces, of pure soap one ounce, and of alum one ounce. Mix them all together well and boil the mixture. Well cover the hair with it, sitting in the sun till it dries, being careful not to get sunstroke and wearing a light silk robe whose colors will not be affected by the ointment. Gradually the hair will become a lovely golden color."

Let you think that the Italian beauties and their cavaliers—had to go out and slay a dragon to obtain the necessary dragon's blood, we must confess that this requisite was obtained from the juices of various plants known as sweet flag, dragon's blood tree, and others of the same family, and was merely a balsam.

No such laborious, complicated process need be gone through in these days of scientific beauty aids, ready for use. Is a more golden tone desired for the hair? Miss 1924 merely takes out her little bottle of L'Oréal Henna and em-erges from her shampoo with the desired Tintan tint, or goes to a luxurious beauty parlor front which she soon walks out with shining coiffure. Indeed the Italian beauty of 1400 would be truly surprised if she were to be reincarnated today and could see the far more valuable beauty recipes of 1924 available to all women. Instead of being hereditary secrets.

The Titan hue immortalized by the artist is said to have been due to a hair dye used by the Italian women, the secret of which was originally brought from the East. Italian ladies of 1400 A. D. spent long hours on the roofs of their homes, applying the ointment and drying it in the sun, the sunshine being an important part of the mysterious process. The secret of their Titan hair aroused the envy of women of other nations, and also the curiosity of a French physician, Arnaldo de Villanova, who in vain sought to learn the composition of the ointment-dye.

present depressing conditions thru- out the industry.

THE PRAIRIE OIL & GAS COM- PANY,

By DANA H. KELSEY, Vice-President & General Manager.

FIRST PRESBYTERIAN CHURCH SUNDAY

A telegram from Rev. E. H. Hud- son, who is attending Synod at Abilene, states that his brother, Dr. John Black Hudson will fill the pul- pit at the First Presbyterian church Sunday morning and night.

George Hughes, editor of the Grosbeck Journal, and his family were Circus visitors here Thursday.

County Judge Fountain Kirby of Grosbeck was here for the circus Thursday.

HOW'S BUSINESS?

T. Bass, proprietor of the B-B Filling Station, 401 South Belknap, and incidentally dealer in Hudson and Essex automobiles, is another optimist.

"My business is almost twice as good as last year," Mr. Bass stated. Asked how he accounted for the substantial increase, Mr. Bass replied: "Well, Mexia is almost twice as good a town as it was last year—every way you want to look at it. Then, too, there are other reasons, less important. Our street was in very bad condition most of last year,

part of the time being closed to traffic altogether. The paved high- way leading out by our place to the southwest is a big artery of travel and we have chosen a good location on that highway.

"Business conditions generally are reflected in automobile travel. So far as I am able to see and judge, Mexia is enjoying a good business and fairly lively all the way 'round."

Rev. E. H. Hudson, pastor of the First Presbyterian church, has been in Abilene attending Synod this week. He has been prominent in the work of the session and named on important committees.

### 526 ACRES OF LAND FOR SALE

10 miles southeast of Mexia and 2 miles east of Fallon. 75 acres in cultivation, black land, and worth \$150 per acre. Dwelling, barns, plenty of running water and wells. 250 acres fenced with net wire and 150 acres fenced for cow pasture. Not leased for oil or gas. Will sell the 526 acres including farm implements and teams for \$20 per acre. See—

Also one 5-room house and lot on E. Palestine St.

L. T. Knox at Knox Service Station in Mexia or J. W. Sims, 731 East Palestine Street, Mexia.

# DIVIDENDS

## You Are A Stockholder IN MEXIA!

### Help yourself to interest

The fact that you live in Mexia makes you a stock- holder in Mexia. What would you think of a stockhold- er who would let his coupons go unclipped? who was vitally enough interested to be a stockholder, and not vitally enough interested to further the cause in every possible way.

Yet that's just the situation—unless you do your best for Mexia. You will collect no dividends on your interest in Mexia. Mexia will progress that much more rapidly if every citizen will lend his best efforts.

So this is our plea for your Co-operation. Trade in Mexia—help the other fellow so that he may the better help you.

We are glad to serve you for the advancement of Mexia.

### "U AND I MAKE MEXIA"

## MEXIA MANUFACTURERS AND JOBBERS ASSOCIATION

25 Members

## G.O. P. NATIONAL CAMPAIGN FUND \$3,000,000

### MEXIA TRADES DAY COMMITTEE REPORTS FINE PROGRESS

#### ALL COMMITTEES TO GET BUSY ON MONDAY

Chairman L. S. Patterson of the committee soliciting gifts for the Mexia Merchants Merchandise Show to be held in honor of out of town folks here Nov. 8th, reports that of the twenty merchants visited this morning all subscribed at least fifty dollars worth of merchandise, except one and the one subscribed one hundred and fifty dollars worth which represented a fifty dollar gift each from its Teague and Jewett store as well as its place here.

All committees will be in the field at 9:30 Monday morning and advertising on a large scale will begin next week. Nothing but enthusiasm has been expressed so far. Upon invitation of President McElroy of the Merchants association, the Chamber of Commerce has joined forces as well as the Manufacturers association.

The auto caravan will make its trip and hope to carry with them The Elks Band and Boy Scouts to bill every community near here. This trip will take place Oct. 28th.

A tentative program has been arranged but is not yet ready for publication. John Corley (Jr) has been appointed to be judge in the prettiest country girl contest.

Every merchant will be urged to do his bit—however small in this great advertising campaign. It is proposed to bring ten thousand visitors here upon November the 8th.

Full particulars will appear in this paper next week early.

#### MEXIA FRIENDLY TO CAMPAIGN TO IMPROVE COLLEGE

O. W. Milburn, Financial Agent for Westminster College, is very much encouraged over prospects ahead of the nearby institution, in view of the expressions of interest so generously made by every one when Westminster is mentioned.

The college is now in the midst of a campaign to raise \$100,000 for its expansion program, which will provide new equipment, new buildings and added facilities to meet the growing demands of the institution.

He and others, representing the college were guests Thursday at the noonday luncheon of the Mexia Rotary club. Monday of this next week, or within the next few days, efforts will be made, Secretary Jere Cason of the Chamber of Commerce assisting, to raise Mexia's quota which is \$10,000.

#### PARENTS OF DYING BOY ARE LOCATED BY RADIO

LOS ANGELES, Oct. 17.—Radio served here to bring a dying boy and his parents together.

An 11-year-old boy was picked up on a street, fatally injured as the result of a traffic accident. He was taken to a hospital and frantic efforts made to locate his parents.

Finally the radio was resorted to and Mr. and Mrs. John Melton arrived at the hospital just an hour before their son, Foster, died. They were informed of their son's accident while a musical concert was interrupted.

#### BAETHE TEST IS STILL DRILLING

The Gilbert Johnson Greer test at Baetie continues to be much talked of but about which little seems definitely known in oil circles. It is understood to be drilling around 280 feet and that the bottom of the shaft was found at 284 feet. This log is said to tally exactly with that of the Powell producing area.

#### ANOTHER REMITTANCE SCHOOL APPORTIONMENT

(By United Press)  
AUSTIN, Texas, Oct. 17.—The State Department of Education has mailed one dollar per capita of the school apportionment to all county superintendents in districts that have qualified, making a total of three dollars paid on current apportionment of \$14 per capita.

#### Chinest Legation Endeavoring To Stop Tong War

WASHINGTON, Oct. 17.—The Chinese legation here stepped into the Tong war that has terrified China towns along the Atlantic seaboard during the last week, in an effort for peace. Local representatives of the warring factions were brought together by Dr. Alfred Sze, Chinese minister, and induced to agree upon a truce. The document will be signed later today.

#### COTTON COMES IN SLOWLY IN COUNTY ADJOINING MEXIA

According to reports from Freestone County, cotton is now coming in very slowly throughout that county. The 1924 crop is almost all in.

#### BAPTISTS START BIG TENT MEET IN MEXIA MONDAY

The big tent meeting of the Baptist church will begin Sunday in Mexia. Mr. Hunt, tent man with the Starnes evangelistic party, arrived in Mexia Friday to begin the raising of the tent, preparatory to the big event of the church year.

The pastor, Rev. Joe Jeffers and the Assistant Pastor, Rev. Paul B. Harper will have charge of the services. Rev. Jeffers to do the preaching and Rev. Harper to lead in the service of song.

Mrs. Paul Harper and Mrs. Ira Needham will be at the pianos. Three choirs have been organized for the services, a junior, intermediate and senior.

The tent is to be placed at the corner of Main and McKinney, and will be sufficiently commodious to take care of great congregations.

The revival will continue two weeks.

#### GREAT WALL CITY IS CAPTURED BY TSO LIN'S TROOPS

OSAKA, JAPAN, Oct. 17.—Chang Tso Lin's Manchurian troops completely occupied Shan Hai Kwan, gateway city in the great wall of China today and captured 1,000 Chi Li troops, according to Mukden dispatches.

A machine detachment is reported pursuing Wu Pei Fu's troops towards Chin Wang Tso.

In connection with the above dispatch it is well to recall that Japanese sympathies are with Chang Tso Lin and that Mukden whence the report comes is the Manchurian warlord's headquarters.

#### 1400 Hats Are In Ring In England

(By United Press)  
LONDON, Oct. 17.—Fourteen hundred candidates will be placed in nomination by three political parties tomorrow with twelve stormy days of campaigning remaining before the general election. Leaders expect the conservatives to name 549 candidates, labor 810, and liberals, 830.

#### FANATIC ARRESTED.

(By United Press)  
KANSAS CITY, Oct. 17.—"Jesus Christ Revealed," arrested here during a police round up of religious fanatics yesterday, today gave his earthly name as V. Cochran of San Antonio, Texas. Cochran, who was at first believed to be "King" Ben-Jamin Purnell, said he joined the cult at San Antonio to get evidence against a negro, who he said was the real leader of the cult. Cochran said he had a family in San Antonio.

ST. JOSEPH, Mo., Oct. 17.—The man held in Kansas City as "Jesus Christ Revealed," is not "King" Ben-Jamin Purnell, according to local authorities after viewing a photo description of the prisoner.

#### FANG CAPTURES SHANGHAI AND IS IN FULL CONTROL

(By United Press)

SHANGHAI, Oct. 17.—General Fang, ward lord of Fukien, occupied the city this afternoon and assumed control of the military district. Fang has been a lieutenant of General Yuan who defeated Hsiang and captured the city. Danger in the city is considered ended, but the population is panicky and a thousand natives rushed the barred wire entanglements around the foreign quarter during the night but were repulsed. Negotiations for the surrender of 10,000 defeated Chekiang soldiers encamped outside the city are under way.

#### COUPLE TO PLEAD GUILTY TO CHARGE

(By United Press)

MOUNT VERNON, Ill., Oct. 17.—Lawrence Hight, unfrocked Methodist minister, and Elsie Sweetin, are scheduled to be brought here to plead guilty to two joint first degree murder indictments. Both confessed poisoning their mates to clear the way for their love. States Attorney Frank Thompson indicated that he would ask the extreme penalty.

#### Many Oil Men To Attend Association Meeting In Dallas

Quite a number of local oil men are planning to go to Dallas, Friday, October 24, for the sixth annual meeting of the Texas Division of the Mid-Continent Oil and Gas Association. The meeting will be held at the Adolphus Hotel at 10:30 o'clock.

An executive committee will be elected for the ensuing year and matters of general interest will be discussed. The annual dinner will be served in the Palm Garden at 7:00 o'clock. An interesting program is said to have been planned, which includes short addresses by prominent men on timely subjects of value to the oil fraternity.

Practically every company in the Mexia territory is a member of the Association.

Many will utilize the opportunity to witness the S. M. U. football game which will be played in the afternoon.

#### Another Herd of Cattle Doomed

(By United Press)

HOUSTON, Texas, Oct. 17.—The seventh herd of cattle in Harris county found to be infected with foot and mouth disease was discovered here and the herd of 75 will be slaughtered this afternoon. An additional herd of 300 "worst cattle" will also be slaughtered as a precautionary measure. All cattle have been held within the restricted district since the outbreak of the epidemic.

#### BOLTON RETURNS FROM DEPUTY MEETING IN CHICAGO THIS WEEK

Hon. Frank Bolton, Enrolled Ruler of the Mexia Elks, also District Deputy to the Grand Enrolled Ruler of the Elks of America has returned from Chicago where he attended a meeting the early part of the week at which all districts in the United States were represented. Mr. Bolton represented the largest district in Texas, comprised of districts in thirteen of the largest cities of this section and North Texas.

#### BOYD TEST NOT YET IN THE AUSTIN CHALK

Colonel A. E. Humphreys left at noon Friday to spend Saturday in Dallas. He will return here Sunday, to spend a few days. Before leaving he stated that he had just visited the Boyd Oil Company's test in the Boyd, Northeast of here, and that the drill had not yet penetrated the chalk. The depth was 2465 feet. It was his belief that the limestone was west of the fault.

#### Chapman's Alleged Pal Is Under Arrest.

Walter Shean wanted to be a bad man, so he left the home of his millionaire father in Buffalo, N. Y., to try burglary, according to the charges of the New Britain, Conn. police, who arrested him as an alleged accomplice of Gerald Chapman, master criminal, wanted there for killing a policeman who caught him blowing a safe.

#### CAMPAIGN CARS COMPARED BY POLITICAL WRITER

(By United Press)

CHICAGO, Oct. 17.—Behind the scenes the picture of this presidential campaign is just the opposite to what every one believes it to be.

Hurting through the night over the Prairies of Illinois, a special train is bearing the caravan of John W. Davis, the democratic nominee. In the baggage car are a corps of stenographers, whaling away at a mimeograph machine turning out the evening's speech. In the next car newspaper men are hammering at portable typewriters, writing "the politics of the situation."

In his private car, John W. Davis is doing his nightly dozen to the prompting of Jim Cullen, the prize fight manager who primed Bill Brennan, the late pugilist, for scores of ring battles over a period of six years. It is "Davis, the fighter."

In another train through the endless wheat fields of the Dakotas, is a far different picture. The stenographers are there, the newspaper men are there, but in the private car that swings on the end sits Robert M. La Follette, nearly 70 years old, with his sons, Philip and Robert, Jr., and other advisers grouped around a table in a smoke-filled compartment.

His physician, Dr. Colver, a throat specialist, is asleep in an adjoining compartment-like room while his patient—whom some have said would break under the strain of incessant campaigning—is staying up planning the morning's battles. It is La Follette the careful politician.

"I think I could match Davis with Jack Dempsey tomorrow," Cullen told the United Press.

"Senator La Follette's health shows not the slightest impairment and his condition is perfect," Dr. Colver said.

Traveling with each of the candidates in their campaign has developed evidences of their opposing tactics. La Follette prepares set speeches and he reads from his manuscripts with his son nearby to see that he does not unwittingly exert himself. Davis speaks without preparation. He sizes up his audience when he goes before it and in a few moments decides upon his method of attack.

On the platform La Follette is full of fire. Davis is quiet and careful of himself. His advice recently counseled him of a "supreme confidence" and asked him to "take off his kid gloves." But his answer was "I am not that kind of a campaigner and I don't want to be that kind of a president."

But behind the scenes their positions are reversed and Davis will go on sparring with his prize-fighter's manner and La Follette thrusting out "the dog" with his keen-eyed gaze.

#### DAVIS CONFERS WITH LEADERS IN ILLINOIS CAUCAS

(By United Press)

CHICAGO, Oct. 17.—John W. Davis held a series of conferences with George Brennan and the Illinois leaders today as he prepared to wind up his assault upon this state and move southward into new territory.

Brennan is optimistic about the outcome here. He avoids definite predictions but insists that "there are three weeks yet before the voting begins."

Davis has three speeches scheduled during the day at small meetings. A strenuous effort is being made to put over the local, county and state democratic tickets.

Tonight he will depart for St. Louis and his present plans call for speeches in succession at Nashville, Louisville, Evansville and Cleveland. He may stop in Cincinnati if arrangements are made.

In a speech at a rally in the auditorium here last night Davis reiterated his declaration against the Ku Klux Klan in answer to a heckler and chided President Coolidge for failing to answer the same question.

#### Westminster Has Talented Woman On Its Lyceum

"Irene Bewley" is the first attraction listed on the lyceum course at Westminster College. She is declared to be a born entertainer. Like Topsy, she just "grows" to be an entertainer. You feel that fact from the moment of her appearance on the platform. The eye's first critical appraisal registers delight, the ear adds its testimony of pleasure. Then the mind and heart, in the music of her voice, the ease and naturalness of her method, the sure intuition of her visualization, the consummate artistry of her interpretation, place their swift o. k. upon the judgment of eye and ear. That indefinable thing called personality reaches out and ties the unseen chords between the artist and the audience. Miss Bewley disappears. Behold the characters she presents, changing with kaleidoscopic swiftness, peopling the stage! Suddenly it dawns upon you that there is a performance to be enjoyed rather than to be endured, as one critic has happily put it, and you relax with a happy I-like-her-immensely feeling to commend the truthfulness of the observer who first called her an entertainer. She is all of that, and a rarely good character interpreter as well. She may have limitations, but her program gives no hint of it. The understanding mind and sympathetic heart shine through all her work, illuminating alike the humorous, the pathetic, the dramatic. Personally able—a Tennessee-New Englander—delightful, helpful, generous, reasonable with a rugged naturalness and a culture of the real and abiding sort—we commend her to the public as possessing those charms of personality, temperament and talent which proclaim her the ideal entertainer.

#### MEXIA MAN RIDES IN THE BIG SHOW

Fred Kerner happened to one of his usual unusual experiences on Circus day. He was in the oil field on a mission for Colonel A. E. Humphreys and while on route back to town, overtook a boy and a girl who were walking this way. He invited them to have a ride, which they accepted. They stated that they were coming to the circus to see their brother ride. He was Little Roberts, one the best equestrians in the circus and had sent the members of his family circus for the day. They live in the oil field.

SAN ANGELO—A new power plant of the local electric lighting company that cost \$150,000 and increases the capacity of the plant to more than present needs of the city has been completed.

ACKSONVILLE — A whale was consisting of fifty-one ornamental lights in the business section of this city has been ordered for by the city authorities.

#### Golf Tournament For Patterson Cup Starts On Monday Afternoon

The third golf tournament for the L. S. Patterson silver cup will begin Monday, October 20th, at the Mexia Country Club.

These tournaments are creating much excitement and enthusiasm among the local club members, as a new trophy winner is a monthly occurrence. Allen Hatch was the first winner of the loving cup, Vincent Gantz was the second winner and present holder of the cup. About forty contestants have been on hand at each of starts, out of which sixteen of the lowest scores play off an elimination contest until the winner is decided upon.

#### NOVEMBER GRAND JURY LIST IS GIVEN FOR COUNTY

The following is a list of the Grand Jury for November term of the 87th. District Court, Limestone County:

- R. M. Cralle, Groesbeck.
- Dean Cox, Mexia route.
- W. M. Welch, Kosse.
- Tom L. Cox, Mexia.
- Ed Hitt, Mexia.
- L. C. Hardison, Personville.
- J. T. Camp, Big Spring.
- W. C. Truett, Kosse route.
- H. H. Alexander, Delia route.
- Lee Nance, Thornton.
- C. E. Prince, Coolidge.
- Dewitt Todd, Kosse.
- P. F. Ferguson, Groesbeck, route 4.
- Jno. Douglas, Mart route.
- Wilmer Jackson, Teahuacana.
- E. H. Hines, Groesbeck.

#### HEAVY WINDS ARE ENCOUNTERED BY NAVY DIRIGIBLE

(By United Press)

SAN FRANCISCO, Cal., Oct. 17.—Proving her air worthiness in an all night battle against strong head winds the United States navy dirigible Shenandoah reported her position at 1:15 a. m. today as 59 miles south of Monterey.

The Shenandoah left San Diego yesterday morning on her flight to Camp Lewis, Wash.

#### Shenandoah Passes Over Golden Gate Headed Northward

SAN FRANCISCO, Oct. 17.—The Shenandoah, which was scheduled to visit here, passed twenty miles off the Golden Gate between 5 and 6 o'clock this morning, proceeding northward. A desire to make up time lost in fighting gales caused the elimination of the scheduled wait.

#### ELECTRIC GROUND CABLE MAY GUIDE AEROPLANES

LONDON, Oct. 17.—The British Air Ministry is now experimenting with an electric guiding cable for aircraft, which may be the forerunner of definite aerial routes possible for night flying and flying through fog. The plan, from instruments before him, would be able to tell when flying directly over the cable laid along the ground, and the device would automatically correct the direction of the flight of an aeroplane which was off the set course. With the completion of such a scheme it would be possible to establish air routes as definite as railroad lines.

SAN ANGELO—Extension of the lines and service of the San Angelo Telephone Company to meet the growth of this city are under way at a cost of about fifty thousand dollars.

ACKSONVILLE — A whale was consisting of fifty-one ornamental lights in the business section of this city has been ordered for by the city authorities.

#### CASH COLLECTED TO DATE OVER ONE HALF TOTAL

(By United Press)

CHICAGO, Oct. 17.—The campaign budget of the republican national committee totals \$3,000,000, William Butler, national chairman, told the Senate Campaign Investigating Committee here. Of that amount \$2,500,000 is to be used for the national campaign and the balance in congressional and senatorial campaigns, Butler said. The cash collected to date is around \$1,700,000, he advised the committee. Butler said he expected to collect all the three million dollars before election day.

#### CORSICANA MAN MAKES OIL DEAL IN FALLS

MARLIN, Texas, Oct. 17.—A drilling contract between Fred Allison and W. R. Jones and J. A. Lockett, in connection with the test being sunk for oil on the Marlin Grocery Company lease between Marlin and the Brazos River has been filed for record at the Falls county Clerk's office.

In exchange for use of a rig belonging to him, Allison received a lease on 100 acres of land, 50 acres of which were located in a tract adjoining the acreage on which the well is being put down on the northwest, 25 on the southeast and 25 on the east. In return, Jones and Lockett agree to sink a well to a depth of 1,500 feet.

#### WHEELER MAKES FIRST SPEECH IN TEXAS AT EL PASO

EL PASO, Texas, Oct. 17.—"The Democratic party, for the moment, is almost non-existent in the west" Senator Burton K. Wheeler, independent vice-presidential candidate, declared in his first Texas address here last night in which he appealed to democratic voters to support the Independent ticket.

Wheeler chaired the leaders of both major parties as "figureheads of Wall Street" and predicted that the third party would have the support of progressives of both divisions.

"I was elected to the United States Senate as a democrat, but after witnessing the democratic national convention in New York, I am appealing to you as an independent."

"Never in its history did the democratic party, my party, have a greater opportunity for service to the people presented to it. The masters of the republican party had declared in national convention that the course which had led to unspeakable corruption of the last three and a half years was a good enough course. So doing they offered the democratic party a golden opportunity to rescue the government from the political brigands who have led it by the throat. What did the democratic party do with this opportunity? It nominated John W. Davis, attorney for the house of Morgan—chief among masters of the republican party" Wheeler charged.

"There must be a progressive party in this country to realize the reactionary republican party. It rears with the rank and file of democracy to say whether that party shall be the democratic party" Wheeler declared, adding the charge that "democratic party managers were attempting to make their party merely a subsidiary of the republican cause."

Wheeler's address here culminated in a day in which he had spoken in Albuquerque and made several other platform speeches in New Mexico. The candidate was scheduled to make a short speech at Dallas today and spend Saturday at Wichita, Kansas.

#### THE WEATHER.

Texas—Generally fair.

# Southwest Texas Farmers Coming To Mexia

## SPECIAL TRAIN IS DUE IN CITY NOVEMBER 18TH

On November 18, a Special Train of Southwest Texas Farmers from the counties of Jim Wells, Kleberg, Nueces and San Patricio will arrive in Mexia and the time that will be spent here will be announced in a future issue. These farmers are nearly all Texans who have lived or farmed in the various Texas counties they expect to visit, and some of them have not been to their old homes in many years.

These farmers are traveling in a special train which leaves Corpus Christi November 9th, and will travel via the S. A. & A. P. to San Antonio, M. K. & T. Ry. to Dallas, H. & T. C. Ry. to Sherman, T. & P. Ry. to Paris, Tex. Mid. Ry. to Ennis, H. & T. C. to Caldwell, G. C. & S. F. Ry. to Alcoa and back to Corpus Christi via the Gulf Lines. They will stop at thirty five places for 4 or more hours of which this place is one.

This Farmers Excursion has with it the following:

### From Soup To - Structural Steel

It may seem a far cry from soup to structural steel, but Mrs. Jean Shassore of Terre Haute, Indiana is equally at home in the feminine avocation of creating a new and delicious soup, as in mapping out a successful campaign to place a large order of structural steel,—for selling steel is her vocation.

Here is one of her favorite soups—Cream of Lettuce.

### SKUNKS HAVE RABIES ALSO

(By United Press)

GONIALES, Oct. 17.—Bitten on the nose by a skunk while asleep in an old school house Beeville, a two-year-old son of H. McBrown was rushed to the Pasteur institute at Austin for treatment for rabies.

The animal came up through a floor of the school house and attacked the child. It was killed by the father and an examination disclosed that it had rabies.

### SAYS SOOT CUTS DOWN EFFICIENCY OF FURNACE

(By International News Service.)

ST. LOUIS, Mo., Oct. 17.—That one-tenth of an inch of soot on the interior of a modern home furnace cuts down the heat efficiency 50 per cent was demonstrated by a recent series of experiments conducted at Washington University here under the direction of Professor E. L. Ohle, of the mechanical engineering department.

Professor Ohle said the amount of

heat that can be sent through the average house or building depends to a large extent upon the absence of quantities of soot or dirt in the furnace itself.

Mrs. Lida May Lofland and daughter, Lucille, have arrived from Austin to keep house for her father, J. J. Beckman, during the absence of

Mrs. Beckham who is spending the winter in Pasadena, California. These splendid people are sure to win many friends while in Mexia.

## Marlin Bulldogs Meet Black Cats At Rimes Park

The Mexia Hi Black Cats left at 11:30 Friday morning for Marlin where they will play the Marlin Bulldogs in the first interscholastic league game that the Bulldogs have entered this season.

Coach Poteet states that if defeated he has one consolation and that is that he is playing only by way of Groesbeck to Big Hill and from there to Marlin. 27 men are making the trip while many boosters are also going. The members of the squad that are making the trip are:

Felix Parker, Doyle Perkinson, Wilbur Hoelzel, Jack Corley, Wayne Thompson (Capt.), Robert Travis, Robert Wallace, Bernice Anderson, Reuben Storey, Bill Murphy, Jim Wright, Wayne Lucas, Rufus McKinzie, Marvin Bennett, Maurice Robinson, Carlos Clover, Dick Buford, Francis Beeson, Jim Karner, Ed Wiggins, Rado Ward, Mil Aulds, Herman Dorsett, Sam Sewell, Weldon Wiggins, Murdock Masters, Jack Pugh.

The Cats are carrying Joe Arrington, local referee, who will officiate in the game there.

A telegram was received from W. B. (Dub) Kendrick and Robert (Buddy) Storey, former Mexia Hi Cats and who are now attending Rice Institute, Friday morning, wishing the team the best of luck in their game with the Bulldogs. Dub and Buddy were star performers on the Cat eleven for their four years in high school.

Marlin is confident of winning the game by a big score. The press carries the following item under the Marlin date line:

The Marlin Hi Bulldogs will take on the Mexia Hi Bobcats Friday afternoon at Rimes park here in the first interscholastic league conference game that the Bulldogs have played this season. With the good showing the Bulldogs exhibited against the A. and R. Reserves, holding them to a score of 7 to 6, two weeks ago, and last Friday playing the Southwestern Scrubs a score of 20 to 7 in favor of the Bulldogs, they are expected to make at least three touchdowns against the Bobcats without having their goal crossed.

With Coone and Spindle at guards, both weighing around 220 pounds, Rogers, Summers and Rip Collins at tackle. Bartlett playing in his usual splendid game at center, Charley Norwood, 6 feet, 2 inches, and "Hog" Hodges at end, the speedy Lenoir at fullback, the elusive and swiftly speeding "Burr" Russell and Captain Pylant at half, and the fast, swaying, sidestepping Turner at quarter, and number of subs for any position on the team with almost equal merits to these regulars, the Marlin Bulldogs are expected to go to the district meet and from there as champions to the State meet in class B.

Class B high schools are those which have a high school enrollment not exceeding 350 students, and the counties in the Marlin district besides Falls, are McLennan, Limestone, Bell, Hill and Ellis. The dopesters give as logical contenders for the district championship Marlin, Belton, Mexia, Italy, Itasca and West.

### ALONG THE SIDELINES.

(By United Press)  
ANAPOLIS—A line-up averaging 191 pounds, the heaviest to ever represent the navy, will start against Princeton tomorrow, according to the official line-up made public today.

PRINCETON—Johnny Hull, scrub tackle has been promoted to varsity half back by Coach Bill Roper, replacing Murray Gibson in an effort to develop a punch in the Tiger eleven.

NEW HAVEN—Yale's line up for the Dartmouth game was still uncertain today as the varsity held their last practice.

CAMBRIDGE—After three days of hard drilling on defensive plays, coaches sent the varsity through stiff defensive work in preparation for the Holy Cross game.

WEST POINT—The army had its final workout for Saturday's game with Notre Dame and will leave today for New York.

HOUSTON — Louisiana University's gridsters arrived in Houston today for their tilt with Rice Institute on the local field tomorrow. Both teams are in fine condition, it was announced.

WACO — George Morris, first-string fullback, will be out of the line-up with an injured shoulder when the Baylor Bears tackle the Arkansas Razorbacks here Saturday.

FAYETTEVILLE—"My men are in tip-top condition" Coach Schmidt said as he loaded twenty-two Razorbacks on the train here last night en route to Waco for the locals' first conference game Saturday.

AUSTIN—More than a thousand Texas rooters were scheduled to

## IS ROCKEFELLER'S DAUGHTER TO WED?

EDWIN D. KRENN & MRS. EDITH MCCORMICK

The marriage of Mrs. Edith Rockefeller McCormick, of Chicago, daughter of John D. Rockefeller and divorced wife of Harold McCormick, Chicago multimillionaire, to her "sympathetic Swiss psychologist" wooer, Edwin D. Krenn, is confidently expected by Chicago society. Krenn, an architect, borrowed enough money from Mrs. McCormick to go into the real estate business in Chicago. Now he is a millionaire, and, although twenty years her junior, is paying ardent court for her hand.

Mr. and Mrs. Jesse McLendon returned at noon Friday from their visit in New York, Washington and other Eastern points. Mr. McLendon reports getting his money's worth, seeing the world's series. His picture shaking hands with Fred Marberry at the Polo Grounds ap-

peared in this paper Wednesday. Mr. Marberry beat Mr. McLendon back home. Mr. and Mrs. J. K. Hughes will remain in New York for a while longer.

Rev. E. H. Hudson has returned from Abilene where he attended the

Synod of his church. G. E. Mitchell was unable to attend on account of sickness. Rev. Hudson was accompanied back to Mexia by his brother, John B. Hudson who will occupy the pulpit Sunday at the First Presbyterian church.

Mrs. J. S. Seale and Mrs. Roland Gardner accompanied Mrs. Dixon to Waco Friday. Mrs. Dixon, a daughter of Mrs. Seale, has been spending a delightful visit here.

All of the pastors of all of the churches in Mexia and their official families are stressing "Go to Church Sunday." The date is the 19th. Be in your place.

Sunday is "Go to church Sunday. Don't fail.

Every town and community in this part of Texas were well represented at the Circus Thursday.

## OUCH! BACKACHE RUB LUMBAGO OR STIFFNESS AWAY

St. Jacobs Oil stops any pain, so when your back is sore and lame, or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, pour a little in your hand, and rub it right on your aching back; and by the time you count fifty the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless, and doesn't

burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

POST—One brown Fox fur between Cotton Gin and Mexia. Finder return to News Office.

J. Denenberg, E. L. Smith and W. K. Boyd returned from Dallas Friday night, after a few days visit in that city.

ABILENE—Recovery from injuries by Kimbrough and Wooten backfield men, places the Simmons College aggregation in better position for their coming struggle with the T. C. U. here Saturday.

PORT ARTHUR—A new franchise has been negotiated with the street railway lines here under which jitneys will be barred from the streets and extensions of the trolley lines constructed.

## Astonishing Health-Building Powers of

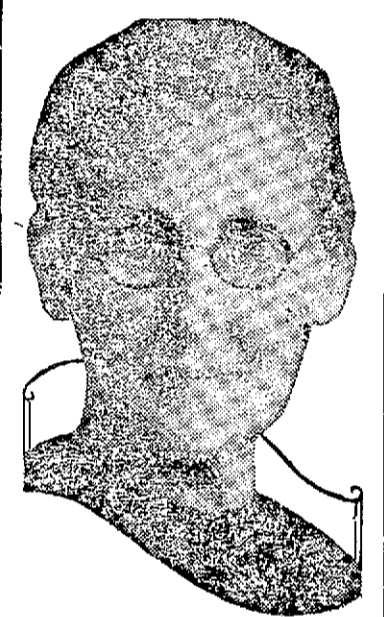

# KARNAK

Proven in Case of Texas Woman—  
"It's a Blessing," Declares Mrs. Armstrong

Miserable with intense stomach suffering both day and night, and so weak and rundown that she could hardly get about the house, Mrs. Amanda Armstrong, 1822 Trunk Ave., Dallas, Texas, tells how Andre's phenomenal new medicine, Karnak, has overcome her troubles and made her well and happy again. Just another demonstration of the remarkable health-building powers of this great, new medicine.

"Before I got Karnak I was just plumb down," is the way Mrs. Armstrong characteristically expresses her condition, "and wasn't able to do a bit of my housework. I had such terrible cramping pains in the pit of my stomach that big drops of perspiration would just roll down my face. These pains would extend clear back through my shoulder blades and were so dreadful I could hardly get my breath. I was simply in agony from bloating and suffering for hours after every meal, and at times I just didn't see how I could live through it. I was dreadfully nervous, too, and could scarcely get a wink of sleep.

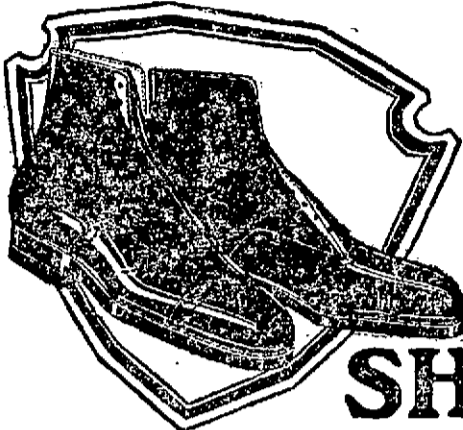

"But I haven't had a single attack with my stomach since I began using Karnak. I have a splendid appe-

tite, eat anything I want, and my food digests perfectly. The pain, bloating and suffering is all gone. I sleep like a healthy child every night, and now do all my housework. I will praise Karnak the longest day I live for the wonderful blessing it has been to me."

Karnak is sold in Mexia by the Mexia Drug Co.—(Adv.)

## "For Mexia. I WILL"

### DID YOU KNOW THAT—

The United States has added to its population at the rate of 7,000,000 in four years and the author of the article reminds the reader that 7,000,000 is the population of greater London; that it is larger than the total population of Australia; that it is nearly equal to that of the whole of Canada.

America has a home market greater than any of the two leading nations of the world beyond the American border line. An addition of 7,000,000 to the population in four years increases the home consumption of all the products of the field and the factory.

There is no reason why the American farmer should not receive the same fair return on his product that the American manufacturer receives on the finished output of mine and factory.

This is what John W. Davis pledges himself to work out if the Americans elevate him to the highest office in their gift.

## CENTRAL TEXAS PRESS

By N. P. Houx

### THE BIGGEST SHOW

Mexia people have just seen the biggest show now traveling—the Ringling Bros. and Barnum & Bailey aggregation—and it is truly a great show, but it is not the biggest ever. The biggest and best show that ever "made" Texas was on the road about fifty years ago. It was a one ring affair and showed on a lot smaller than a city block, with John Robinson as the star bareback rider and Dan Rice as the single clown. "We" carried water for the troupe of elephants, (one big fellow) and thereby earned a ticket to the show. That was truly the "biggest and best show that ever was," or ever will be.

Bluffs are all right to produce scenic effects but they are not worth much in business or draw poker.—Sam Miller in Mineral Wells Index.

Don't be so sure of that. We have "heard" of "bluffs" in a draw poker game that beat three aces, and sometimes even a flush or a full. You never can tell just what the other fellow holds by the size of his bet—unless you call him.

This item appeared in the Houston Post-Dispatch 25 years ago col.: "Clarksville Times: Ed Green's automobile is all right for the as-

## ITALY'S FUTURE RULER REPORTED ENGAGED

PRINCESS MARIE JOSE & PRINCE HUMBERT

The engagement of Prince Humbert, heir to the Italian throne, is reported again in Rome, the expected bride being Princess Marie Jose, daughter of the Belgian rulers. While there is no official confirmation by either of the royal families, it is believed in well informed circles that the date of the engagement will be announced shortly.

And if you should be so lucky as to escape the wild bullet, be careful anyway lest you get bumped off by a wild flivver. Be careful.

### We Do.

Who remembers when public school pupils devoted more time in learning to properly spell than they devoted to athletics?—Gainesville Register.

When we were attending a country school in the winter time over in East Texas, when we were not engaged in some sort of controversy

with the teacher, we were busily engaged with an old blue back spell-cr. All the athletics we had was a game of town ball or four-cornered cat, at noon and recess and we had some of the best spellers in the whole county. A young high school student called at our office last week and wanted to know what she should study to become a newspaper woman. "Learn to spell" was the first thing we told her to do. She went away kinder sorrowful.—Mineral Wells Index.

"Tis true, 'tis pity, and pity 'tis,

# CISCO-ABILENE GAME ATTRACTS WIDE INTEREST

By ROY B. HENDERSON.

AUSTIN, Texas, Oct. 17.—With-  
out a doubt, the game in the Uni-  
versity of Texas Intercollegiate  
League football race to which the eyes  
of Texas are turned this week is the  
Cisco-Abilene affair to be played at  
Abilene Friday afternoon. Cisco  
has the strongest team in the his-  
tory of the school and unless the  
Eastland county boys get stage  
fright from such formidable compe-  
tition, the state champions of '23  
may be forced to take some of the  
medicine they so freely applied to  
all comers last year.

Little less in importance is the  
Vernon-Wichita Falls go at Wichita  
Falls Saturday afternoon. Vernon  
always has been a real contender  
for the honors in her district, and  
Coach McCallum and his Coyotes  
will do well to be on the alert.

Other games this week of real  
importance are: Amarillo-Plainview  
Breckenridge-Ranger, Paris-McKin-  
ney, Athens-Palestine, Yorktown-  
Kenedy, and Granger-Taylor.

The following are also scheduled  
to meet:

Conference A—Brownfield at Lub-  
bock, Bowie at Electra, Comanche-  
Stephenville, Brownwood at East-  
land, Ft. Worth Central at Bryan  
High Dallas, Mineral Wells at  
Strawn, Polytechnic (Ft. Worth) at  
Gainesville, Diamond Hill at Weath-  
erford, Bryan at Waco, Greenville at  
Terrell, Denison at Sulphur Springs,  
Oak Cliff vs. Arlington Heights.

Marshall vs. Gilmer, Nacogdoches  
at Jacksonville, Tyler at Lufkin,  
Mineola at Grand Saline, Texarkana  
at Shreveport, Galveston at Beau-  
mont, Houston Central at Eagle  
Lake, San Marcos at Breckenridge.

Conference B—Sec. 1.—Shamrock  
at McLean, Pampa vs. Canadian,  
Memphis at Hedley, Canyon at Here-  
ford, Higgins at Perryton, Claren-  
don at Claude, Tulsa vs. Slaton, Pan-  
handle at Miami, Dalhart at Clayton.

Sec. 2.—Spur at Ralls, Matador at  
Floydada, Post at Snyder.

Sec. 3.—Gorman at Desdemona,  
Rising Star at Carbon, Haskell vs.  
Stamford, Anson at Sweetwater, Big  
Spring vs. Colorado, Dublin at Ham-  
ilton, Clyde at Albany.

Sec. 4.—Wichita Falls Junior High  
at Henrietta, Graham at Decatur,  
Quanah at Paducah, Seymour vs.  
Kunday, Alvord at Bridgeport.

Sec. 5.—Wills Point at Kemp,  
Rockwall at Kaufman, Honey Grove  
at Commerce, Leonard at Bonham,  
Highland Park vs. Grand Prairie,  
Wolfe City at Farmersville, Cooper  
vs. Ladonia.

Sec. 6.—Winnsboro at Longview.

Sec. 7.—Odessa at Midland, Bars-  
tow at Ft. Stockton, Marfa at Al-  
pine.

Sec. 8.—San Saba at Mason, Brady  
at Coleman, Boerne at Fredericks-  
burg, Lampasas vs. Llano, Kerrville  
at Sisors, Rochelle at Santa Anna,  
Ballinger vs. Menard, Richland  
Springs vs. Cherokee, Marble Falls  
at Bertram.

Sec. 9.—McGregor at Moody, Fer-  
ris at Itasca, Dawson at State Home,  
Lorena vs. Mart, Marlin vs. Mexia,  
Elgin at Bartlett, Belton vs. Killeen,  
Clifton vs. Meridian, Mt. Calm at  
West.

Sec. 10.—San Augustine at Jas-  
per, Center at Tenaha.

Sec. 11.—Cotulla at Laredo, De-  
vine vs. Brackettville, Del Rio at  
Uvalde, Eagle Pass at Sabinal.

Sec. 12.—Gonzales vs. Nixon, La  
Grange vs. Smithville, Lockhart at  
San Marcos, Giddings at George-  
town, Flatonia at Bastrop (Bastrop  
Fair).

Sec. 13.—Bryan at Cameron,  
Huntsville at Brenham; Bedias Nav-  
asota, at Caldwell, Franklin at  
Georne, Madisonville at Conroe.

Sec. 14.—Humble vs. La Porte  
at Humble, Alvin at Freeport, El  
Campo at Eagle Lake, Houston at  
Eagle Lake, Wharton at Bay City  
Warrsburg at Houston Junior N.  
Side, Beaumont South Park at Dai-  
setta, Texas City at Angleton, Ros-  
enberg at Richmond.

Sec. 15.—Victoria vs. Cuero, Bee-  
ville vs. Runge, Lytle at Poteet,  
Alamo Heights vs. Somerset, Edna  
vs. Palacios, Port Lavaca at Goliad,  
Smiley at Karnes City.

Sec. 16.—Mercedes at Harlingen,  
Weslaco vs. Rio Hondo, Mission at  
Donna, Brownsville vs. McAllen,  
Edinburg vs. San Benito, Pharr vs.  
Weslaco, Sodusville at Kingsville.

BANK ROBBERS AVERAGE  
\$70 AN HOUR IN ST. LOUIS

ST. LOUIS, Oct. 17.—Bank rob-  
beries in this vicinity since January  
1 have averaged \$70 an hour, accord-  
ing to statistical-minded investiga-  
tors.

In seventeen holdups the bandits  
got \$222,872 from banks and trust  
companies in St. Louis and suburbs.  
This is an average of \$850 a day  
since January 1, or \$70 an hour,  
every twelve hours.

Friday.

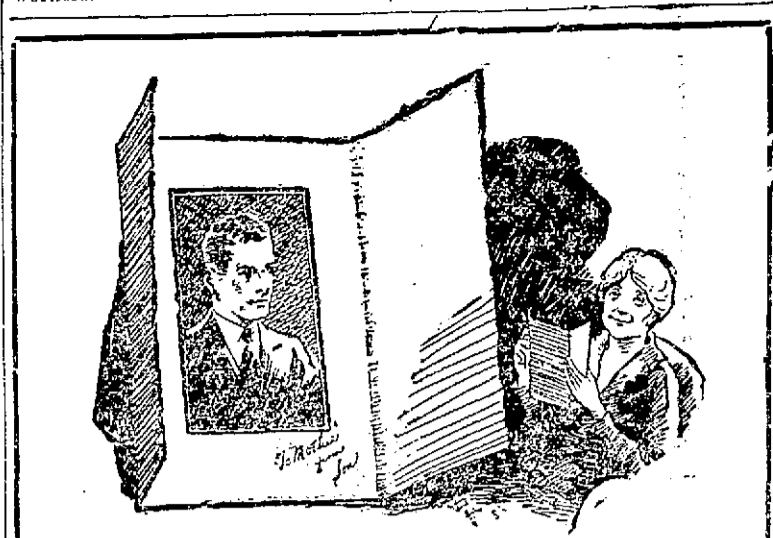

# SEVEN PARTIES BANNED IN INDIANA

(By United Press)

INDIANAPOLIS, Oct. 16.—An in-  
junction preventing the State Board  
of Election Commissioners from put-  
ting tickets of seven political parties  
on the Indiana ballot was granted  
in the Superior Court here. The  
action definitely rules the parties  
out of the general election. It does  
not affect the independent candidacy  
of Senator LaFollette for the presi-  
dency. The parties banned are the

socialist labor, national independent,  
Commonwealth land, American, pro-  
gressive independent, farm labor, and  
workers.

# FORD ROADSTER TURNS TURTLE ON SHOW DAY

Chief of Police Albert Mace states that Thursday was the quietest circus day ever witnessed in Mexia in the way of disorderly conduct and drunkenness. Not a single arrest being made from these complaints; only one or two cases of petty thievery being reported. A large number of out of town cars were in the city last night and the streets were crowded practically all day, but only minor collisions occurred. One Ford roadster turned over on the corner of McKinney and Hunt streets about 7:15 Thursday morning but no injuries were reported. With the assistance of a few passersby the "lizzie" was assisted to her feet and went on her way rejoicing.

## SOUTH AMERICAN LAND SWINDLES HIT U. S. BUYERS

WASHINGTON, Oct. 16.—American farmers of the middle west and far west were warned recently by the Department of Commerce to be wary of proposals to invest money in South American lands.

The department's warning stated that through diplomatic channels, it has been learned that several American colonization schemes have been launched in on the Southern republics. Already, according to the warning many American farmers have been defrauded of millions of dollars through the rosy pictures of the cheap land offered for sale for a few cents an acre, which in the majority of cases have proven worthless.

Much of the land offered for sale, the warning declared, is so far removed from transportation that it is useless for farming purposes, even though it is of the most fertile character. Some of the land has proven to be rocky and under water.

## ELECTRIC GROUND CABLE MAY GUIDE AEROPLANES

LONDON, Oct. The British Air Ministry is now experimenting with an electric guiding cable for aircraft, which may be the forerunner of definite aerial routes possible for night flying and flying through fog. The pilot, from instruments before him, would be able to tell when flying directly over the cable laid along the ground, and the device would automatically correct the direction of the flight of an aeroplane which was off the set route. With the completion of such a scheme it would be possible to establish air routes as definite as railroad lines.

## LOST CHILDREN LOCATED BY RADIO BROADCASTING

LOS ANGELES, Oct. 17.—Radio is proving the most effective method here of locating lost children. Within the last few weeks ten children who strayed from home have been located by broadcasting.

R. R. Strange of Cameron was the Friday.

## MEN AND WOMEN IN NEWS SPOTLIGHT.

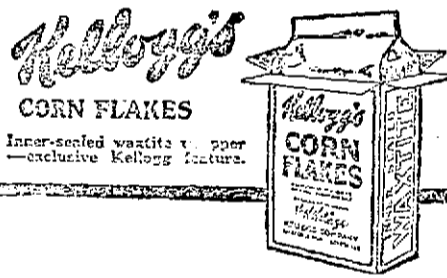

Above: ELIZABETH GORMLEY & MRS. JULIA DAVIS ADAMS. Below: RUBY POE & DONALD MACKINNON.

Mrs. Julia Davis Adams, of Copenhagen, Denmark, daughter of John W. Davis, in an interview in New York City, declared she would vote for the Democratic Presidential nominee, not because he is her father, but because his fundamentals are right and his sympathies are broad. A suspended sentence for disorderly conduct was meted out in New York court to Norman Seelig, whom Ruby Poe, Broadway dancer, and great-grandniece of Edgar Allan Poe, charged with making love with a gun during an automobile ride. Explaining her \$250,000 breach of promise suit against Thomas A. Hanna, multi-millionaire builder of New York, Elizabeth Gormley, twenty-year-old divorcee, declared he was "bald but ideal." Hon. Donald MacKinnon, Commissioner in the United States for the Commonwealth of Australia, is shown leaving the White House in Washington, where he said goodbye to President Coolidge after resigning his post.

"Bring on those Kellogg's Corn Flakes. I'm a hungry man!" Kellogg's Corn Flakes is the name to ask for—say it all.

## Spindletop First To Improve Rotary

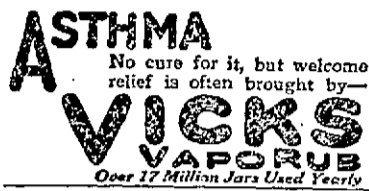

It has been stated that rotary well drilling was invented in 1845. If so, its early development was slow, for the first oil well in this country was drilled by the percussion method in 1859, by Col. E. L. Drake at Titusville, Pa. In 1888, however, the rotary method was employed in a crude way in the Gulf coast country. Two strings of pipe were used, the one to rotate the drill, and the other to wall up or case the hole as it progressed. During the next year it was discovered that thick mud, the more plastic the better, pumped into the hole through the drill stem, would support the walls until the drilling was finished, if the hole was not too deep, thus allowing the casing to be set afterward in one operation. The discovery, credited to B. Andrews, sr., of New Orleans, La., is the most important in the development of the rotary method. From this time the process was further developed and improved in the oil fields of Louisiana and Texas, where, it is stated, in 10 years, more than 10,000 wells were successfully completed in formations in which it was impossible to drill and maintain a hole by any other system.

In 1900, Captain J. F. Lucas began drilling at Spindletop, near Beaumont, Texas, with a rotary rig, and in January, 1901, he brought in the first oil gusher drilled by the rotary method. This was after repeated failures had been made with cable and pole-tool rigs. It may be, too, that the combination method was first used here, for after this success, the softer formations were drilled with rotary machines, and

the hard caprock was penetrated by cable-tool rigs.

Another discovery of importance, and the one which really made the rotary method a serious competitor of the cable-tool system in moderately hard rock, was that of the Hughes rotary rock bit. The bit was invented by Howard R. Hughes, and its manufacture started in 1909 at Houston, Texas. No other rotary bit is so effective in the harder strata, and its invention has assured the adaptability of the rotary method of drilling in fields where other than soft strata occurs. In the years 1905, 1906 and 1907 its use spread all over the world, and during this period it was introduced into California. Here the requirements for drilling considerable deeper wells than the average depth in Louisiana and Texas necessitated the design and construction of heavier machines.

Each succeeding year has brought new improvements and a gradual development of still heavier machines until now the weight of the rotary of the heaviest machine, for example has increased nearly fourfold over

### Girls' Trick of Charming Style

Designed in the favorite straight-line mode with dainty trimming of contrasting material and embroidery, this little frock of nut brown velvetene is both charming and practical.

In this model there may be a division in the matter of plaits, but both sides line up unanimously for embroidery, which is applied at the lower edge of the skirt in cherry tones of tan, orange and brown. The dress calls for 12 yards of velvetene 26 inches wide for 8-year sizes, with 28 yards of plain silk or satin for the trimming, which consists of roll cuffs and a turn-down collar with a pretty trimmings at the back. The side seams are held together with arrow heads made of brown

embroidery silk. Arrow heads are very pretty when they are well made, so that the home dressmaker would do well to try them. Each detail of construction is illustrated in the accompanying diagrams. First run a colored thread the exact shape and in the place where the arrow head is to be, bringing the thread out from the underside of the work at the left hand corner. Next, carry the thread upward to the point of the angle, taking a short, straight stitch under the arrow head. Carry the thread down to the right hand corner, taking a straight catch underneath (Fig. II), bringing the point of the needle out at the right of and as near as possible to where the thread was brought through first. Carry the thread upward, taking a short stitch across and underneath the top of the arrow head (Fig. III). Be sure to place the needle so that the thread falls outside of the stitches first made, so that the point of the needle comes out of the diagonal thread. The next step is to carry the thread downward to the right hand end of the work (Fig. IV), placing

### Making An Arrow Head

the needle to the left of the thread at that point. Bring it out to the right of the left hand diagonal stitches. Be sure to take the stitches at the top of the work outside of the previous stitches. The stitches at the lower part of the arrow head are all taken inside of preceding stitches.

## Leaves Savings To White Friends

(By United Press)  
BRENHAM, Oct. 17.—Having a premonition that he would not live long, John Van Ness, aged negro, dug up about \$1,000 in coins out of the hen house in his back yard, deposited the money in a Brenham bank and made his will leaving all his property to his "Good Friend" Reese Lockett.

Both Van Ness and his wife had been servants in the Lockett house.

# PASTOR OF CITY TEMPLE SPEAKS SUNDAY NIGHT

Rev. L. D. Young D. D., pastor of The City Temple of Dallas and retiring chairman of Executive Committee of Synod filled the pulpit at the Central Presbyterian Church Sunday night.

Dr. Young was at his best and while the congregation expected a great and soul stirring message they were moved beyond this expectation and feasted upon theological thesis not often enjoyed.

His lesson was a spiritual feast taken from no special text. The sermon was an insight into the real man Paul The Apostle. The subject matter was stated by him as "The man with Five Handicaps and The Five Crowns "The Apostle Paul."

Paul, Dr. Young stated, had as his first handicap one of physical infirmity. Just what this was no one at this time knows. Perhaps it was an incurable malady, but it fastened it's self upon this man of God so that he often referred to it and it's effect on his life was ever apparent. Then came his moral handicap. The speaker stated that no man had a darker past than did Paul. His morality was at a low ebb even sinking into blasphemy. His third handicap was that "he got off to a slow start." He was slow to see the work that was ahead of him and to grasp it. Then his early education was neglected and his fifth and last and perhaps greatest handicap was that he never saw Jesus Christ in the flesh.

This last drawback in the life of Paul left him without that insight and inspiration that the personal touch of the Saviour of Man stamped upon all who came within halting distance of him.

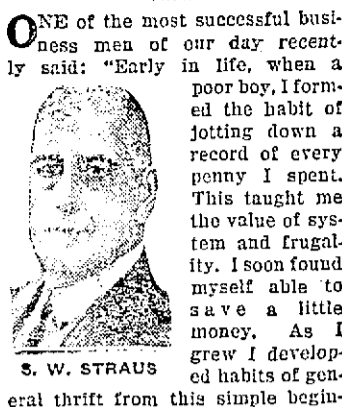

Dr. Young spoke with feeling regarding each of these handicaps and made it apparent that he had given the matter much thought and study. He then brought out the Five Crowns that were placed on the brow of Paul. First was the Crown of Life, then of Rejoicing for it seemed in all things Paul rejoiced. Then came the Crown of achievement of Contentment and finally of Glory.

He stressed each of these in his forcible manner and convincing argument. Dr. Young asked each and every member of the congregation to seek out his own handicap and to try and see if it could be overcome or mastered in some way. He stated all of us had some handicap in life—some have two or more and even five as Paul had and yet look at the Five Crowns he finally achieved. Quiet a lesson to be taken from this man who was freighted with so many handicaps. Dr. Young also stated that Paul was the greatest among them all save His Christ and gave utterance to words that only Christ His Saviour surpassed.

He also referred to the suffering of the day. Both physical and mental as well as spiritual.

## PERSONAL BUDGET AID TO SUCCESS THROUGH THRIFT

By S. W. STRAUS,  
President American Society for Thrift

ONE of the most successful business men of our day recently said: "Early in life, when a poor boy, I formed the habit of jotting down a record of every penny I spent. This taught me the value of system and frugality. I soon found myself able to save a little money. As I grew I developed habits of general thrift from this simple beginning, and, with a small amount of capital thus available when I reached the age of maturity, I was able to take advantage of opportunities that led to subsequent success."

While it may seem a waste of time to laboriously keep a record of every cent one spends it is a fact that many of our successful men hold themselves to this rigid discipline.

Every business concern keeps a strict account of every penny received and spent, and a business which transacted its affairs in any other manner would be most incapably managed. The same principle should hold true in the case of the individual.

Carelessness in small things leads to carelessness in larger affairs and likewise the careful handling of small amounts of money fits one for the greater and larger responsibilities of life.

The value of budget keeping is especially valuable to the young for the habit thus formed in life is quite apt to be carried along as a permanent routine.

If you are endeavoring to get ahead in the world and be prepared for the rainy days that come into all lives, adopt first of all the rule of keeping an accurate daily record of your expenses. You will find that by the adoption of a budget system your success in thrift will be made doubly easy and you will soon be surprised at the difference these systematic practices make in the amount of your savings.

A few pennies or a few dollars wasted here and there do not seem to amount to much at the time they are spent, but when you see the record of these extravagances in cold figures they assume their true proportions and significance. Make your thrift practices conform to a concise, definite system.

His message was well received and was seed sown in fertile soil that will bloom and give forth much fruit after it's author has taken on his last crown and joined the Paul of his lesson.

Immediately following the sermon the final session of the Synod was called.

### SALESLADIES AND SOLICITORS WANTED

At once, ladies to travel, demonstrate, and sell dealers for well known toilet goods manufacturer. \$25 to \$50 per week. Railroad fare paid. Can also use two local sales representatives. Experience unnecessary. GOODRICH DRUG CO., Omaha, Neb. A-17-1

## Hillsboro Calls Off Westminster Game

The Hillsboro Junior College called off the game to be played with the Westminster Wildcats on the Hillsboro gridiron this afternoon, Friday, Oct. 17th.

The officials of that school called Coach Chas. Lewis over the phone Tuesday and cancelled the game. No reason was given for their actions, with the exception of the statement that their team was in no physical condition for the game on account of injuries.

This cancellation leaves the weekend blank for the Wildcats, who will have time for plenty of rest and conditioning before their clash with Rusk at that place next Friday, Oct. 21st.

### PRAIRIE GIVES RELIEF.

#### TO PRODUCERS OF CRUDE OIL IN OKLAHOMA, KANSAS AND TEXAS:

The Prairie Oil & Gas Company will immediately resume paying in full as of October 1, 1921, under the terms of its regular division orders, for all oil run for its account, and the Storage Plan of July 17, 1921, is modified in accordance with this notice.

Owners of this Company's storage receipts, who desire to receive payment in cash for the oil covered by such receipts, are hereby notified that this Company will cash all such receipts, paying this Company's posted price at present in effect, as follows:

Below 30 degrees Beaume gravity 75c per bbl.

30 degrees to and including 32.9 degrees Beaume gravity 90c per bbl.

33 degrees to and including 35.9 degrees Beaume gravity \$1.10 per bbl.

36 degrees Beaume gravity and above \$1.25 per bbl.

In all cases where owners of storage receipts desire to take advantage of this offer to cash such receipts at the present market price, and do so, and surrender such receipts to E. T. Patterson, Treasurer of The Prairie Oil & Gas Company at Independence, Kansas, for payment on or before October 31, 1921, the accumulated storage charges of three cents per barrel per month will be waived.

This offer to pay for storage oil, with waiver of storage charge, will only apply to those receipts actually presented to the Treasurer of this Company on or before October 31, 1921. Any receipts not presented to the Treasurer of this Company, under the terms of this offer, on or before October 31, 1921, remain outstanding subject to the election and call of this Company under the strict terms of the receipts themselves.

In connection with the above announcement the attention of producers is called to the fact that production in the Mid-Continent Field is still large; the industry is just entering the low winter-period of consumption, and our market for crude oil is still inadequate to absorb our entire purchases. It is hoped that producers will not misconstrue the above action taken by this Company; such action is taken for the purpose of extending to the Company's patrons the largest possible measure of financial relief under the

## The Art of Beauty

By B. M. DOUGLAS

### DRAGON'S BLOOD REQUIRED FOR ANCIENT BEAUTY RECIPE

BEAUTY hints and recipes today are broadcast in newspapers, magazines, books, and even by radio, so that the door to beauty and charm may be unlocked by every woman. However a few hundred years ago beauty aids were secrets in the possession of the nobility and the wealthy; and each family jealously guarded the recipes in its possession, as a precious secret heritage passed on by word of mouth from mother to daughter for generations and generations.

The Titian hue immortalized by the artist is said to have been due to a hair dye used by the Italian women, the secret of which was originally brought from the East. Italian ladies of 1400 A. D. spent long hours on the roofs of their homes, applying the ointment and drying it in the sun, the sunshine being an important part of the mysterious process. The secret of their Titian hair aroused the envy of women of other nations, and also the curiosity of a French physician, Arnaldo de Villanova, who in vain sought to learn the composition of the ointment-dye.

Bourjois Beauty Syndicate

One day, however, Arnaldo chanced to save the life of an Italian child, and its mother in gratitude declared that he should have whatever he asked for as a reward.

"The secret of your beautiful hair, Madame," quickly replied the Frenchman, and, so the story goes, she gave it to him.

This is the famous recipe: "Take of dragon's blood four ounces, of Arabian gum two ounces, of pure soap one ounce, and of alum one ounce. Mix them all together well and boil the mixture. Well cover the hair with it, sitting in the sun till it dries, being careful not to get sunstroke and wearing a light silk robe whose colors will not be affected by the ointment. Gradually the hair will become a lovely golden color."

Let us think that the Italian beauties—or their cavaliers—had to go out and slay a dragon to obtain the necessary dragon's blood, we must confess that this requisite was obtained from the juices of various plants known as sweet flag, dragon's blood tree, and others of the same family, and was merely a balsam.

No such laborious, complicated process need be gone through in these days of scientific beauty aids, ready for use. Is a more golden tone desired for the hair? Miss 1924 merely takes out her little bottle of L'Oréal Henna and combs it from her shampoo with the desired Titian tint, or goes to a luxurious beauty parlor from which she soon walks out with shining coiffure. Indeed the Italian beauty of 1400 would be truly surprised if she were to be reincarnated today and could see the far more valuable beauty recipes of 1924 available to all women, instead of being hereditary secrets.

present depressing conditions through the industry.

### THE PRAIRIE OIL & GAS COMPANY.

By DANA H. KELSEY,  
Vice-President & General Manager.

### FIRST PRESBYTERIAN CHURCH SUNDAY

A telegram from Rev. E. H. Hudson, who is attending Synod at Abilene, states that his brother, Dr. John Black Hudson will fill the pulpit at the First Presbyterian church Sunday morning and night.

George Hughes, editor of the Groesbeck Journal, and his family were Circus visitors here Thursday.

County Judge Fountain Kirby of Groesbeck was here for the circus Thursday.

### PEOPLE AVOID YOU IF YOU ARE PIMPLY

A boy or girl may have ever so perfect a face, neck and poise, but if even one little pimple, blotch, bump or red spot shows, it ruins their whole appearance. You know how true this is, because you just naturally avoid people whose appearance is not pleasing.

These things are no longer to be endured, however, because thousands of people are getting rid of the worst and most stubborn cases of such skin diseases easily and quickly by using Black and White Ointment and Soap. It seems like magic to eczema, ring-worm, itch, "breaking out," etc.

Doctors everywhere are recommending Black and White Ointment, and Soap, now. They are economically priced in liberal size packages. The 50c size Ointment contains three times as much as the liberal 25c size.—(Adv.)

### HOW'S BUSINESS?

T. Bass, proprietor of the B-B Filling Station, 401 South Belknap, and incidentally dealer in Hudson and Essex automobiles, is another optimist.

"My business is almost twice as good as last year," Mr. Bass stated. Asked how he accounted for the substantial increase, Mr. Bass replied: "Well, Mexia is almost twice as good a town as it was last year—every way you want to look at it. Then, too, there are other reasons, less important. Our street was in very bad condition most of last year,

part of the time being closed to traffic altogether. The paved highway leading out by our place to the southwest is a big artery of travel and we have chosen a good location on that highway.

"Business conditions generally are reflected in automobile travel. As far as I am able to see and judge, Mexia is enjoying a good business and fairly lively all the way 'round."

Rev. E. H. Hudson, pastor of the First Presbyterian church, has been in Abilene attending Synod this week. He has been prominent in the work of the session and named on important committees.

## 526 ACRES OF LAND FOR SALE

10 miles southeast of Mexia and 2 miles east of Fallon. 75 acres in cultivation, black land, and worth \$150 per acre. Dwelling, barn, plenty of running water and wells. 250 acres fenced with net wire and 150 acres fenced for cow pasture. Not leased for oil or gas. McSwane Flower and Gift Shop

# DIVIDENDS

## You Are A Stockholder IN MEXIA!

### Help yourself to interest

The fact that you live in Mexia makes you a stockholder in Mexia. What would you think of a stockholder who would let his coupons go unclipped? who was vitally enough interested to be a stockholder, and not vitally enough interested to further the cause in every possible way.

Yet that's just the situation—unless you do your best for Mexia. You will collect no dividends on your interest in Mexia. Mexia will progress that much more rapidly if every citizen will lend his best efforts.

So this is our plea for your Co-operation. Trade in Mexia—help the other fellow so that he may the better help you.

We are glad to serve you for the advancement of Mexia.
